

# THE PARTIAL CONSTITUTION

WE the People of the States of New-Hampshire, Massachusetts, Rhode-Island and Providence Plantations, Connecticut, New-York, New-Jersey, Pennsylvania, Delaware, Maryland, Virginia, North-Carolina, South-Carolina, and Georgia, do ordain, declare and establish the following Constitution for the Government of Ourselves and our Posterity.

## ARTICLE I.

The Title of this Government shall be, "The United States of America."

### II.

The Government shall consist of supreme legislative, executive and judicial powers.

### III.

The legislative power shall be vested in a Congress, to consist of two separate and distinct bodies of men, a House of Representatives, and a Senate; ~~and~~

~~which shall meet on the first Monday in December, and shall continue to sit until the first Monday in December of the next year.~~ The Legislature shall ~~meet on the first Monday in December, and shall continue to sit until the first Monday in December of the next year.~~

SECT. 1. The Members of the House of Representatives shall be chosen every second year, by the people of the several States comprehended within this Union. The qualifications of the electors shall be the same, from time to time, as those of the electors in the several States, of the most numerous branch of their own legislatures.

SECT. 2. Every Member of the House of Representatives shall be of the age of twenty-five years at least; shall have been a citizen of the United States for at least ~~seven~~ years before his election; and shall be, at the time of his election, ~~a resident~~ of the State in which he shall be chosen.

SECT. 3. The House of Representatives shall, at its first formation, and until the number of citizens and inhabitants shall be taken in the manner herein after described, consist of sixty-five Members, of whom three shall be chosen in New-Hampshire, eight in Massachusetts, one in Rhode-Island and Providence Plantations, five in Connecticut, six in New-York, four in New-Jersey, eight in Pennsylvania, one in Delaware, six in Maryland, ten in Virginia, five in North-Carolina, five in South-Carolina, and three in Georgia.

~~SECT. 4. As the proportions of numbers in the different States will alter from time to time; as some of the States may hereafter be divided; as others may be enlarged by addition of territory; as two or more States may be united; as new States will be erected within the limits of the United States, the Legislature shall, in each of these cases, regulate the number of representatives by the number of inhabitants, according to the ~~proportion of numbers in the different States~~ ~~and the rate of one for every forty thousand.~~ ~~and shall continue to sit until the first Monday in December of the next year.~~~~

SECT. 5. All bills for raising or appropriating money, and for fixing the salaries of the officers of government, shall originate in the House of Representatives, and shall not be altered or amended by the Senate. No money shall be drawn from the public Treasury, but in pursuance of appropriations that shall originate in the House of Representatives.

SECT. 6. The House of Representatives shall have the sole power of impeachment. It shall choose its Speaker and other officers.

SECT. 7. Vacancies in the House of Representatives shall be supplied by writs of election from the executive authority of the State, in the representation from which they shall happen.

**The Partial Constitution** Cass R. Sunstein, 1993 This was not always the case as Sunstein demonstrates nor was it the intention of the country's founders Instead the Constitution often served as a catalyst for public deliberation about its general terms and aspirations and Sunstein makes a strong case for reviving this broader understanding of the Constitution's role

Constitutional Review under the UK Human Rights Act Aileen Kavanagh, 2009-05-07 Under the Human Rights Act British courts are for the first time empowered to review primary legislation for compliance with a codified set of fundamental rights In this book Aileen Kavanagh argues that the HRA gives judges strong powers of constitutional review similar to those exercised by the courts under an entrenched Bill of Rights The aim of the book is to subject the leading case law under the HRA to critical scrutiny whilst remaining sensitive to the deeper constitutional political and theoretical questions which underpin it Such questions include the idea of judicial deference the constitutional status of the HRA the principle of parliamentary sovereignty and the constitutional division of labour between Parliament and the courts The book closes with a sustained defence of the legitimacy of constitutional review in a democracy thus providing a powerful rejoinder to those who are sceptical about judicial power under the HRA

**Material Law** John Brigham, Law is part of the process by which people construct their views of the world In *Material Law* distinguished scholar John Brigham focuses on the places where law and material life intersect and how law creates and alters our social reality Brigham looks at an eclectic group of bodies and things from maps and territories and trends in courthouse architecture to a woman's womb and a judge's body to make connections between the material and the legal Theoretically sophisticated and consistently fascinating *Material Law* integrates law and society political science and popular culture in a truly interdisciplinary fashion Brigham examines how the meaning of law is influenced by politics reviewing for example whether the authority of global law supersedes that of national law in the context of anglo american cultural colonialism What emerges is a well reasoned look at how the authority of law constitutes what we see as real in our lives

**Constitutional Ethos** Alexander Tsesis, 2017-02-27 Judges courts and scholars in the United States agree that the Constitution is the supreme law of the land but there is much disagreement about its meaning So what seems to be incontestable truth is riddled with disagreements about every day questions of decision making on matter such as whether people are entitled to government created programs what rights are fundamental the criteria for voting the three branches of governments several responsibilities and even who should have the final say in defining the Constitution's meaning Constitutional Ethos is a groundbreaking investigation into the fundamental principles of constitutional principle meaning and interpretation It explores the core purposes of American representative democracy in light of historical sources recent precedents and contemporary debates Alexander Tsesis argues that a central norm of U S law can be derived from the Declaration of Independence and Preamble This book develops a theory of constitutional law structured on the public duty to protect individual rights for the general welfare The maxim of constitutional governance synthesizes the protection of individual and public rights The ideal is neither solely theoretical nor customary but tied to a firm foundation that the people then build upon by lobbying elected officials and petitioning appointed judges Representative government has an interlinked obligation to the individual and the general welfare This paradigm for responsible governance sets the baseline against which citizens can hold policy makers accountable to the structural and normative commitments of the Constitution A pluralistic system must respect human dignity and govern for the betterment of the body politic Those mandates set the terms for exercising legitimate power at the federal state and local levels to protect individual rights to achieve the common good of civil society Tsesis demonstrates that ethos is binding on the conduct of all three branches of government and their officeholders His argument challenges the more common U S perspective among academics and judges who typically discount the existence of any objective constitutional value regarding the document as a construct of social norms To the contrary Tsesis shows that the people established the terms of the nation's founding documents to protect universal unalienable rights The structure of government provides the mechanisms of those in a pluralistic state to set reasonable limitations for the betterment of society as a whole Understanding the Constitution's special place in American legal culture is essential for resolving a host of contemporary issues including those involving

marital gender and voting equalities The state is a means of optimizing the well being of individuals Human productivity can best flourish in a society of equals where talents can be brought to bear in the betterment of self and other members of the community The Constitution does not create rights but protects those universal ideals of representative democracy first set out in the Declaration of Independence It further grants authority to political institutions for the enforcement of policies and concrete laws for the betterment of society or some relevant segment of it Many scholars with leanings in legal realism and process theory believe the authority of government is a social construct created by popular majorities Tsesis convincingly demonstrates to the contrary that even those laws enacted by popular majorities are not authoritative unless they accord with a central maxim of constitutionalism which is the protection of individual rights for the common good     **The**
