the late 19th century brought to this project an earnestness born out of his religious vocation and a paternal concern for the moral upbringing of the young His background in pastoral work shines through this didactic literature underscoring the transformative power of earnest faith based conversation Stall s passion for instilling fundamental values is evident making this book a window into the author s soul as much as it is a moral guide for its readers Recommended for those with an interest in historical approaches to children s moral education *With the Children on Sundays* resonates with an undiminished relevance in its call for the nurturance of character and spirit Readers who appreciate a glimpse into Victorian era values educators seeking historical perspectives on character formation and anyone intrigued by the intersection of spirituality and pedagogy will find Stall s work both enlightening and soulful It stands as a testament to the enduring significance of spiritual literature for the young

Metropolitan Pulpit and Homiletic Monthly ,1900 **Object Lessons and Early Learning**

Sharon Shaffer,2018-07-11 The twenty first century is a time of change for early learning in museums due in part to society s evolving view of childhood from an age of innocence to understanding the robust learning that defines the first years of life This perspective is a catalyst for international conversation and continues to raise attention and interest across society Object Lessons and Early Learning leverages what is known about the cognitive development of young children to examine the power of learning through objects in museum and heritage settings Exploring the history and modern day practice of object based learning Shaffer outlines the rationale for endorsing this approach in both formal and informal learning spaces She argues that museums as collecting institutions are learning spaces uniquely positioned to allow children to make meaning about their world through personal connections to cultural artifacts natural specimens and works of art A range of descriptive object lessons inspired by objects in museums as well as from the everyday world are presented throughout the text as examples of ways in which children can be encouraged to engage with museum collections Object Lessons and Early Learning offers insights into strategies for engaging young children as learners in museum settings and in their everyday world and as such will be essential reading for museum professionals classroom educators and students It should also be of great interest to academics and researchers engaged in the study of museums and education
