Beyond Sustainability Tim Delaney, Tim Madigan, 2021-07-12 This book approaches environmentalism via two academic disciplines sociology and philosophy. Both have concerns about the environment's ability not only to sustain itself but to thrive. The authors argue that rather than simple sustainability we must promote thrivability for the sake of protecting the environment and all living things. In this greatly expanded second edition the authors have updated data and examples, introduced new topics and concepts, and emphasized the need to lessen our dependence on fossil fuels. Numerous topics are explored from the differences between sustainability and thrivability and the overuse of plastic to mass extinction, the role of natural disasters and more. The Covid 19 pandemic offers an added perspective on the relationship between disease and the environment

The Disaster Film as Social Practice Joseph Zornado, Sara Reilly, 2024-07-26 Surveying disaster films from a Lacanian psychoanalytic perspective, this book explores the disaster film genre from its initial appearance in 1933, *The Grapes of Wrath* 1933, to its present day form *Don't Look Up* 2021, laying bare the ideological unconscious at work within the genre. The Disaster Film as

Social Practice examines environmental science history film and literature in its interdisciplinary analysis of the disaster film genre. It explores the interplay and the dichotomy of restorative and reflective disaster narratives. An analysis of cinema's role in symbolizing and managing collective anxiety around disaster and death narratives examines how disaster films through their narrative structures and symbolic elements contribute to the public's understanding and emotional processing of real world threats and how cinematic narratives shape and are shaped by public and private ideological discourses reflecting deeper psychological and environmental truths. Finally the book offers an overview of how the transformation of the disaster film genre over time tells a history through imagining the worst. Providing a nuanced understanding of the disaster film genre and its significance in contemporary culture and thought this book will be of interest to scholars and students of film studies, cultural studies, media studies and environmental studies.
