Spring Of Criticism:

Pesticides, A Love Story Michelle Mart, 2018-01-26 Presto No More Pests proclaimed a 1955 article introducing two new pesticides miracle workers for the housewife and back yard farmer Easy to use effective and safe who wouldn't love synthetic pesticides Apparently most Americans did and apparently still do Why in the face of dire warnings rising expense and declining effectiveness do we cling to our chemicals Michelle Mart wondered Her book a cultural history of pesticide use in postwar America offers an answer America's embrace of synthetic pesticides began when they burst on the scene during World War II and has held steady into the 21st century for example more than 90% of soybeans grown in the US in 2008 are Roundup Ready GMOs dependent upon generous use of the herbicide glyphosate to control weeds Mart investigates the attraction of pesticides with their up to the minute promise of modernity sophisticated technology and increased productivity in short their appeal to human dreams of controlling nature She also considers how they reinforced Cold War assumptions of Western economic and material superiority Though the publication of Rachel Carson's *Silent Spring* and the rise of environmentalism might have marked a turning point in Americans' faith in pesticides statistics tell a different story *Pesticides a Love Story* recounts the campaign against DDT that famously ensued but the book also shows where our notions of *Silent Spring*'s revolutionary impact falter where in spite of a ban on DDT farm use of pesticides in the United States more than doubled in the thirty years after the book was published As a cultural survey of popular and political attitudes toward pesticides *Pesticides a Love Story* tries to make sense of this seeming paradox At heart it is an exploration of the story we tell ourselves about the costs and benefits of pesticides and how corporations government officials ordinary citizens and the press shape that story to reflect our ideals interests and emotions **Twentieth-century Literary Criticism** Gale Research Company, 1999 Excerpts from criticism of the works of novelists poets playwrights and other creative writers 1900 1960

American and British Poetry Harriet Semmes Alexander, 1984 *On Critical Postmedia and Korea* Joff P. N. Bradley, 2024-08-08 On Critical Postmedia and Korea Philosophy Technology Literature was curated for the simple reason that a shift has taken place in orientation towards the future Not long ago the West looked to Japan as charting a path to a new form of society with a unique dynamic of media economics technology culture and politics Yet across the Sea of Japan a phase change has occurred since the bursting of the economic bubble on the Japanese archipelago Now we look to South Korea for a new vision of the future and a fresh perspective on media and technology A new era beckons a Korean era Therefore it's imperative to understand this gleaming model of hyper accelerant advanced industrial capitalism and its soft and hard power effects This collection thus embraces South Korea's transformation positioning it as a key architect of future societies **Science Without God?** Peter Harrison, Jon H. Roberts, 2019-01-03 Can scientific explanation ever make reference to God or the supernatural The present consensus is no indeed a naturalistic stance is usually taken to be a distinguishing feature of modern science Some would go further still maintaining that the success of scientific explanation

actually provides compelling evidence that there are no supernatural entities and that true science from the very beginning was opposed to religious thinking Science without God Rethinking the History of Scientific Naturalism shows that the history of Western science presents us with a more nuanced picture Beginning with the naturalists of ancient Greece and proceeding through the middle ages the scientific revolution and into the nineteenth century the contributors examine past ideas about nature and the supernatural Ranging over different scientific disciplines and historical periods they show how past thinkers often relied upon theological ideas and presuppositions in their systematic investigations of the world In addition to providing material that contributes to a history of nature and naturalism this collection challenges a number of widely held

misconceptions about the history of scientific naturalism **Thoughts on Preaching and Pastoral Ministry** James M. Garretson, 2015-12-11 In *Thoughts on Preaching and Pastoral Ministry* James M Garretson provides a detailed narrative of James W Alexander s life in order to better understand his approach to gospel labors Garretson draws deeply from Alexander s correspondence tracking the spiritual development of his life as it shaped his practice of pastoral ministry In addition assessments of Alexander s sermons books and especially reviews provide valuable personal statements that shed light on his character and convictions Throughout Alexander is allowed to speak for himself so that the reader may enter into the spiritual pulse that animated his life and actions Bracing heartening and at times frustrating Alexander s growth as a Christian and development as a minister is the story of a man subdued by God s grace and a life marked by a growing conformity to the likeness of Christ For those whose privilege it is to serve as ministers of the gospel Alexander s life and instruction provide inspiration and wisdom for how to do pastoral ministry well and with all of one s heart *On the Limits of Criticism* Basil Busacca, 1950 **The Insurance Critic** , 1897 **The Critic's Notebook** , 1950 Small Farmer Credit United States. Agency for International Development, 1973 **Catalog** University of South Dakota, 1895 **The Hemingway Review** , 1991 **Cumulated Dramatic Index, 1909-1949** Frederick Winthrop Faxon, 1965 Catalogue of the University of Dakota for the Year ... , with Announcements for the Year ...
