Martha Borst,2007 **Agriculture in Third World Cities** Mary Jane Cockram,1993 Forgotten Places Thomas A. Lyson,William W. Falk,1993 **Survival at the Bottom** Heidi I. Hartmann,2003 Red Earth Bonnie Lynn-Sherow,2004 Before the great Land Rush of 1889 Oklahoma territory was an island of wildness home to one of the last tracts of biologically diverse prairie In the space of a quarter century the territory had given over to fenced farmsteads with even the racial diversity of its recent past simplified In this book Bonnie Lynn Sherow describes how a thriving ecology was reduced by market agriculture Examining three central Oklahoma counties with distinct populations Kiowas white settlers and black settlers she analyzes the effects of racism economics and politics on prairie landscapes while addressing the broader issues of settlement and agriculture on the environment Drawing on a host of sources oral histories letters and journals and agricultural and census records Lynn Sherow examines Oklahoma history from the Land Rush to statehood to show how each community viewed its land as a resource what its members planted how they cooperated and whether they succeeded Anglo settlers claimed the choice parcels introduced mechanized farming and planted corn and wheat blacks tended to grow cotton on lands unsuited for its cultivation and Kiowas strove to become pastoralists Lynn Sherow shows that as each group vied for control over its environment its members imposed their own cultural views on the uses of nature and on the legitimacy of the other in their own relationship with the red earth Lynn Sherow further reveals that racism both institutionalized and personal was a significant factor in determining how where by whom and to what ends land was used in Oklahoma She particularly assesses the impact of USDA policy on land use and by extension environmental and social change As agricultural agents railroads and local banks encouraged white settlers to plant row crops and convert to market farms they also discriminated against Indians and blacks And as white settlers prospered they in turn altered the relationship of Indians and African Americans with the land The transformation of Oklahoma Territory was a protracted power struggle with one people s relationship to the land rising to prominence while banishing the others from history Red Earth provides a perceptive look at how Oklahoma quickly became homogenized mirroring events throughout the West to show how culture itself can be a major agent of ecological change *Prairie Birds* Paul A. Johnsgard,2001 Johnsgard provides an overview of the history current status and uncertain future of prairie birds from falcons and shorebirds to larks and sparrows Some are intercontinental migrants that winter in South America others sedentary species or short distance travelers that may frequent the grasslands of Mexico Johnsgard describes each species its features habits habitats migratory patterns and breeding season ecology Class Struggle and the New Deal Rhonda F. Levine,1988 In this reassessment of New Deal policymaking Rhonda Levine argues that the major constraints upon and catalysts for FDR s policies were rooted in class conflict Countering neo Marxist and state centred theories which focus on administrative and bureaucratic structures she

contends that too little attention has been paid to the effect of class struggle      **Igniting King Philip's War** Yasuhide Kawashima, 2001 Although it is usually considered from a political or cultural standpoint Kawashima retells the story of the murder and trial from the perspective of legal history and overlapping jurisdictions He shows that Plymouth's aggressive extension of its legal authority marked the end of four decades of legal coexistence between Indians and colonists ushering in a new era of cultural and legal imperialism      **Childhood on the Farm** Pamela Riney-Kehrberg, 2005 Those personal accounts resurrect the essential experience of children's work play education family relations and coming of age from their own perspectives Steering a middle path between the myth of wholesome farm life and the reality of work that was often extremely dangerous Riney Kehrberg shows both the best and the worst that a rural upbringing had to offer midwestern youth a time before mechanization forever changed the rural scene and radio broke the spell of isolation Down on the farm truancy was not uncommon and chores were shared across genders Yet farm children managed to indulge in inventive play much of it homemade to supplement store bought toys and to get through the long spells between circuses
