

An anime-style illustration of a post-apocalyptic city. In the foreground, a young woman with black hair and red eyes sits on a stone ledge, looking down with a sad expression. She wears a grey hoodie and black pants. Behind her, a man with grey hair and a black mask walks away, carrying a large black backpack and holding a long wooden staff. The background shows dilapidated buildings with red roofs and a red lantern hanging from a post. The overall color palette is muted, with a lot of greys and reds.

Survival Diary:

The Private Life of the Diary Sally Bayley, 2016-04-21 Diaries keep secrets harbouring our fantasies and fictional histories They are substitute boyfriends girlfriends spouses and friends But in this age of social media the role of the diary as a private confidante has been replaced by a culture of public self disclosure The Private Life of the Diary from Pepys to Tweets is an elegantly told story of the evolution and perhaps death of the diary It traces its origins to seventeenth century naval administrator Samuel Pepys and continues to twentieth century diarist Virginia Woolf who recorded everything from her personal confessions about her irritation with her servants to her memories of Armistice Day and the solar eclipse of 1927 Sally Bayley explores how diaries can sometimes record our lives as we live them but that we often indulge our fondness for self dramatization like the teenaged Sylvia Plath who proclaimed herself The Girl Who Would be God This book is an examination of the importance of writing and self reflection as a means of forging identity It mourns the loss of the diary as an acutely private form of writing And it champions it as a conduit to self discovery allowing us to ask ourselves the question Who or What am I in relation to the world
