Surviving On The Job:

Surviving Job Loss Kenneth A. Root, Rosemarie J. Park, 2016-02-11 Root and Park examine the plight of workers displaced from two paper mills and their paths to reemployment retirement decisions and the personal struggles they faced as a result of their dislocations. They provide insightful personal portraits of workers that are representative of the hundreds who lost their jobs as a result of two mill closings one in Sartell Minnesota and the other in Bucksport Maine. In addition the authors describe the types of assistance that were offered to the workers displaced by the mill closings. dedicate a chapter each to the plights of female workers and of spouses who were both displaced by the closings. discuss the importance of community when economic displacement occurs. compare the experience of a mill closing in Canada with the Maine and Minnesota closings and conclude with ways that society can be more proactive in assisting workers who suffer job displacement and the economic and psychological impacts that so often occur as a result. Overall this book adds a human perspective to the problems facing dislocated workers not only in the shrinking paper industry but also in other contracting industries in the United States

Surviving Work in Healthcare Elizabeth Cotton, 2017-03-08 The book takes as its starting point the crisis of healthcare in the UK impossible health targets managed through command and control management and a stomach churning rise in racism whistleblowing and victimisation in the NHS. The use of nationally set productivity targets combined with austerity cuts have increasingly put clinical best practice into direct conflict with funding. Health targets have become politically controlled and performance has become a cynical exercise in ticking boxes cascaded within trusts and bulldozed through frontline services. This has led directly to a precarious system of employment relations subject to the continual restructuring of services rather than the goal of creating functioning interdisciplinary teams that stand a chance of capturing clinical excellence. This book is written for workers and managers who are on the frontline of the battle for decent healthcare. The content of this book is based on the ordinary expertise of the people who are actually surviving it and helpful ideas about making the best out of a bad lot. Surviving Work in Healthcare will be of interest to healthcare professionals and anyone working on the frontline of healthcare as well as students of management human resources and psychology

The Workplace Survival Guide George T. Fuller, 1996 The Workplace Survival Guide gives you an arsenal of business tested techniques and strategies to help you become a job survivor and control your own destiny in today's fast changing working world. For example you'll learn how to lessen the chances of being laid off as well as how to search for a new job and negotiate an even higher salary than what you're offered. You'll find techniques for guarding against the financial disasters that can happen if you suddenly become unemployed. You'll see what to do if you need to relocate to find employment
