Van Draanen,2020-01-14 Want to write a novel This book is the motivation you need Part writing guide and part memoir this inspiring book from the author of Flipped and The Running Dream is like Bird by Bird for YA readers and writers Wendelin Van Draanen didn t grow up wanting to be a writer but thirty books later she s convinced that writing saved her life Or at least saved her from a life of bitterness and despair Writing helped her sort out what she thought and felt and wanted And digging deep into fictional characters helped her understand the real people in her life better as well Wendelin shares what she s learned about writing life and what it takes to live the writing life This book is packed with practical advice on the craft about how to create characters and plot a story that s exciting to read But maybe even more helpful is the insight she provides into the persistence and perseverance it takes to live a productive creative life And she answers the age old question Where do you get your ideas by revealing how events in her own life became the seeds of her best loved novels
