Swallow Summer Bison:

Hidatsa Social and Ceremonial Organization Alfred W. Bowers, 1965 *Hidatsa Social and Ceremonial Organization* a study of an important horticultural Plains Indian tribe synthesizes the rich material Alfred W Bowers recorded in the early 1930s from the last generation of Hidatsas who lived in the historic village of Like a Fishhook This documentary record of their nineteenth century lifeways is now a classic in American ethnography The book is distinguished for its presentation of extensive personal and ritual narratives that allow Hidatsa elders to articulate directly their conceptions of traditional culture It combines archeological and ethnographic approaches to reconstruct a Hidatsa culture history that is shaped by a concern for cultural detail stemming from the American ethnographic tradition of Franz Boas At the same time its concern for the understanding of social structure reflects the influence of the British structural functional approach of A R Radcliffe Brown The most comprehensive account ever published on the Hidatsas it is of enduring value and interest The Oölogist ,1918
