Léo Pomar

Standing Ovation:

Music, Performance, and the Realities of Film Ben Winters, 2014-02-05 This book examines the relationship between narrative film and reality as seen through the lens of on screen classical concert performance By investigating these scenes wherein the performance of music is foregrounded in the narrative Winters uncovers how concert performance reflexively articulates music s importance to the ontology of film The book asserts that narrative film of a variety of aesthetic approaches and traditions is no mere copy of everyday reality but constitutes its own filmic reality and that the music heard in a film s underscore plays an important role in distinguishing film reality from the everyday As a result concert scenes are examined as sites for provocative interactions between these two realities in which real world musicians appear in fictional narratives and an audience s suspension of disbelief is problematised In blurring the musical experiences of onscreen observers and participants these concert scenes also allegorize music s role in creating a shared subjectivity between film audience and character and prompt Winters to propose a radically new vision of music s role in narrative cinema wherein musical underscore becomes part of a shared audio visual space that may be just as accessible to the characters as the music they encounter in scenes of concert performance

Audience as Performer Caroline Heim, 2015-07-30 Actors always talk about what the audience does I don t understand we are just sitting here Audience as Performer proposes that in the theatre there are two troupes of performers the actors and the audience Although academics have scrutinised how audiences respond make meaning and co create while watching a performance little research has considered the behaviour of the theatre audience as a performance in and of itself This insightful book describes how an audience performs through its myriad gestural vocal and paralingual actions and considers the following questions If the audience are performers who are their audiences How have audiences roles changed throughout history How do talkbacks and technology influence the audience s role as critics What influence does the audience have on the creation of community in theatre How can the audience function as both consumer and co creator Drawing from over 140 interviews with audience members actors and ushers in the UK USA and Australia Heim reveals the lived experience of audience members at the theatrical event It is a fresh reading of mainstream audiences activities bringing their voices to the fore and exploring their emerging new roles in the theatre of the Twenty First Century
