

# The Starfish Story

Once upon a time, a wise old man came upon a dancing figure along the shoreline. As he got closer, he noticed that the figure was that of a young man, and that what he was doing was not dancing at all. The young man was reaching down to the shore, picking up small objects, and throwing them into the ocean.

He came closer still and called out "Good morning! May I ask what it is that you are doing?"

The young man paused, looked up, and replied "Throwing starfish into the ocean."

"I must ask, then, why are you throwing starfish into the ocean?" asked the somewhat startled wise man. To this, the young man replied, "The sun is up and the tide is going out. If I don't throw them in, they'll die."

Upon hearing this, the wise man commented, "But, young man, do you not realize that there are miles and miles of beach and there are starfish all along every mile? You can't possibly make a difference!" At this, the young man bent down, picked up yet another starfish, and threw it into the ocean. As it met the water, he said, "It made a difference for that one."

*The Life of Illness* Carol T. Olson, 1993-01-01 The Life of Illness tells the story of one woman's courageous struggle with kidney failure illness and death. It is however a book about life hope faith and the transformative power of caring for one another. Carol Olson writes from the heart of experience having shared a life of illness with two brothers and three sisters whom she now survives. Her own life has been precariously maintained by kidney dialysis for more than twenty years. Inspired by the works of philosophers literary authors and poets Olson turns to hermeneutical phenomenology to explore the meaning of the experience of illness. In response to the question How can we live with illness the author engages in reflective conversations. As patient she dialogues with literary works of art dealing with illness developing relationships between texts and others who experience illness from various points of view the chaplain the doctor the nurse and the parent. Olson makes us aware of the significance of others in their various caring relations with the person of illness. The clarity and deeply compelling nature of her writing makes this book accessible to all whose lives have been touched by these experiences. *Artifacts & Illuminations* Tom Lynch, Susan Naramore Maher, 2012-04-01 Loren Eiseley 1907-77 is one of the most important American nature writers of the twentieth century and an admired practitioner of creative nonfiction. A native of Lincoln Nebraska Eiseley was a professor of anthropology and a prolific writer and poet who worked to bring an understanding of science to the general public incorporating religion philosophy and science into his explorations of the human mind and the passage of time. As a writer who bridged the sciences and the humanities Eiseley is a challenge for scholars locked into rigid disciplinary boundaries. *Artifacts and Illuminations* the first full length collection of critical essays on the writing of Eiseley situates his work in the genres of creative nonfiction and nature writing. The contributing scholars apply a variety of critical approaches including ecocriticism and place oriented studies ranging across prairie urban and international contexts. Contributors explore such diverse topics as Eiseley's use of anthropomorphism and Jungian concepts and examine how his work was informed by synecdoche. Long overdue this collection demonstrates Eiseley's continuing relevance as both a skilled literary craftsman and a profound thinker about the human place in the natural world. **Loren Eiseley's Writing across the Nature and Culture Divide** Qianqian Cheng, 2022-12-15 For the twentieth century naturalist and poet Loren Eiseley the relationship between human beings and the natural world has become unnatural divided by the era of modern technology. Loren Eiseley's *Writing across the Nature and Culture Divide* analyses how the philosopher of science becomes a boundary crosser in time and space. Qianqian Cheng points to Eiseley's method of uniting science and the humanities to reflect on human evolution and the past and future role of science with a visionary and poetic imagination.
