The Absolute and Star Trek George A. Gonzalez, 2016-12-23 This volume explains how Star Trek allows viewers to comprehend significant aspects of Georg Hegel's concept the absolute the driving force behind history Gonzalez with wit and wisdom explains how Star Trek exhibits central elements of the absolute He describes how themes and ethos central to the show display the concept beautifully For instance the show posits that people must possess the correct attitudes in order to bring about an ideal society a commitment to social justice an unyielding commitment to the truth and a similar commitment to scientific intellectual discovery These characteristics serve as perfect embodiments of Hegel's conceptualization and Gonzalez's analysis is sharp and exacting

Popular Culture and the Political Values of Neoliberalism George A. Gonzalez, 2019-02-01 Reality is made up of the Absolute and Causality The absolute most saliently philosophized about by Georg Hegel is where normative values inhere Causality can be described as the measurable effects of the normative values of the absolute and the laws of physics also ostensibly a product of the absolute Humans are special insofar as they access the higher aspects of the Absolute altruism compassion love humor science engineering etc The

Absolute also contains what can be considered the less attractive values or impulses greed lust for power hate self centeredness conceit etc Predicating society on what I deem the lower spirits aspects of the absolute most prominently greed results in personal social dysfunction and ultimately the end of civilization Conversely a society based on justice is stable and vibrant Justice is a classless society free of gender and ethnic biases My argument is based on popular culture especially the Star Trek franchise One implication of my thesis is that capitalist values generate psychological neurosis and societal instability even catastrophe Additionally the political values that dominate the current neoliberalist world system and especially the American government are the other the will to power resulting in war and global political instability Popular culture is germane to philosophy and contemporary politics because television movie creators frequently try to attract viewers by conveying authentic philosophical and political motifs Conversely viewers seek out authentic movies and television shows This is in contrast to opinion surveys for instance as the formation of the data begins with the surveyor seeking to directly solicit an opinion however impromptu or shallow
