Enterprise Zones Taylor Harrison,1996-08-08 A critical assessment of the TV series star trek *From the southern cross to the north star* , **The Many Islands of Polynesia** Amos P Leib,1972 *We, the Navigators* David Lewis,1994-05-01 This new edition includes a discussion of theories about traditional methods of navigation developed during recent decades the story of the renaissance of star navigation throughout the Pacific and material about navigation systems in Indonesia Siberia and the Indian Ocean **Voyage of Rediscovery** Ben Finney,2023-11-15 In the summer of 1985 a mostly Hawaiian crew set out aboard Hokule'a a reconstructed ancient double canoe to demonstrate what skeptics had steadfastly denied that their ancestors sailing in such canoes and navigating solely by reading stars ocean swells and other natural signs could intentionally have sailed across the Pacific exploring the vast oceanic realm of Polynesia and discovering

and settling all its inhabitable islands Their round trip odyssey from Hawai i to Aotearoa New Zealand across 12 000 nautical miles dramatically refuted all theories declaring that because of their unseaworthy canoes and inaccurate navigational methods the ancient Polynesians could only have been pushed accidentally to their islands by the vagaries of wind and current Voyage of Rediscovery is a vivid immensely readable account of this remarkable journey through the Pacific including tales of a curiosity attack by sperm whales and the crew s welcome to Aotearoa by Maori tribesmen who dubbed them their sixth tribe It describes how Hawaiian navigator Nainoa Thompson guided the canoe over thousands of miles of open ocean without compass sextant charts or any other navigational aids In so doing it documents the experimental voyaging approach developed by Ben Finney which has both transformed our ideas about Polynesian migration and voyaging and been embraced by present day Polynesians as a way to experience and celebrate their rich ancestral heritage as premier seafarers By sailing in the wake of their ancestors the Hawaiians and other Polynesians who captained navigated and crewed Hokule a made the journey described here a cultural as well as a scientific odyssey of exploration In the summer of 1985 a mostly Hawaiian crew set out aboard Hokule a a reconstructed ancient double canoe to demonstrate what skeptics had steadfastly denied that their ancestors sailing in such canoes and navigating solely by reading stars o *Sea People* Christina Thompson,2019-03-12 A blend of Jared Diamond s Guns Germs and Steel and Simon Winchester s Pacific a thrilling intellectual detective story that looks deep into the past to uncover who first settled the islands of the remote Pacific where they came from how they got there and how we know For more than a millennium Polynesians have occupied the remotest islands in the Pacific Ocean a vast triangle stretching from Hawaii to New Zealand to Easter Island Until the arrival of European explorers they were the only people to have ever lived there Both the most closely related and the most widely dispersed people in the world before the era of mass migration Polynesians can trace their roots to a group of epic voyagers who ventured out into the unknown in one of the greatest adventures in human history How did the earliest Polynesians find and colonize these far flung islands How did a people without writing or metal tools conquer the largest ocean in the world This conundrum which came to be known as the Problem of Polynesian Origins emerged in the eighteenth century as one of the great geographical mysteries of mankind For Christina Thompson this mystery is personal her Maori husband and their sons descend directly from these ancient navigators In *Sea People* Thompson explores the fascinating story of these ancestors as well as those of the many sailors linguists archaeologists folklorists biologists and geographers who have puzzled over this history for three hundred years A masterful mix of history geography anthropology and the science of navigation *Sea People* combines the thrill of exploration with the drama of discovery in a vivid tour of one of the most captivating regions in the world *Sea People* includes an 8 page photo insert illustrations throughout and 2 endpaper maps
