Stanley The Making Of An Explorer:

Stanley Frank McLynn, 1991 *A Life of Sir Francis Galton* Nicholas Wright Gillham, 2001-11-01 Few scientists have made lasting contributions to as many fields as Francis Galton. He was an important African explorer, travel writer, and geographer. He was the meteorologist who discovered the anticyclone, a pioneer in using fingerprints to identify individuals, the inventor of regression and correlation analysis in statistics, and the founder of the eugenics movement. Now Nicholas Gillham paints an engaging portrait of this Victorian polymath. The book traces Galton's ancestry: he was the grandson of Erasmus Darwin and the cousin of Charles Darwin, upbringing training as a medical apprentice and experience as a Cambridge undergraduate. It recounts in colorful detail Galton's adventures as leader of his own expedition in Namibia. Darwin was always a strong influence on his cousin, and a turning point in Galton's life was the publication of *The Origin of Species*. Thereafter, Galton devoted most of his life to human heredity, using then novel methods such as pedigree analysis and twin studies to argue that talent and character were inherited and that humans could be selectively bred to enhance these qualities. To this end, he founded the eugenics movement, which rapidly gained momentum early in the last century. After Galton's death, however, eugenics took a more sinister path, as in the United States where by 1913 sixteen states had involuntary sterilization laws, and in Germany where the goal of racial purity was pushed to its horrific limit in the final solution. Galton himself, Gillham writes, would have been appalled by the extremes to which eugenics was carried. Here then is a vibrant biography of a remarkable scientist, as well as a superb portrait of science in the Victorian era. *Explorer's Guide Colorado (Second Edition)* Matt Forster, 2011-11-07 A classy series with encyclopedic coverage, National Geographic Explorer Colorado offers travelers unsurpassed access to the Rocky Mountains, whether your passion is exploring old mining towns, finding the best run at some of the world's best ski resorts, or roughing it in Rocky Mountain National Park. There's enough here to keep anyone busy year-round. Explorer's Guide Colorado covers everything a traveler should see and do in this great state. Whether you're looking to break trail in virgin powder on a winter getaway or sample fresh local produce from a roadside farmstand in the summer sunshine, Matt Forster is a great companion for your Colorado trip. He provides indispensable information on everything from sources of outdoor equipment rental to the best scenic back roads. The best inns, B&Bs, vacation cottages, and lots more are all covered here, from birding in the eastern plains to winery tours in Grand Junction, and everything in between.
