Star Team Teacher :

Teaching Living Legends Chee-Hoo Lum, Siew Ling Chua, 2016-06-30 This book traces the research on the design implementation and outcomes of a professional development program for in service primary and secondary school teachers aimed at enhancing their understanding of living music traditions in Singapore and how these could be taught in the 21st century music classroom It proposes a professional development framework comprising the areas of Pedagogy Practice and Perspective to guide professional development design The book also aims to promote further discussions on adult learning and teaching about teaching especially with regard to developing self efficacy to handle different music traditions in a 21st century multi ethnic society like Singapore

Majority World Theologies Allen Yeh, Tite Tienou, 2018-10-01 Theology to the Ends of the Earth and Back Again As Christianity's center of gravity has shifted to the Majority World many younger churches in Africa Asia and Latin America are now coming of age With this maturing comes the ability to theologize for themselves not simply to mimic what they have been taught from the West As theology is an attempt to articulate through human language culture and contexts the timeless truths of the eternal and transcendent God Majority World churches have much to offer the West and the world as they contribute to a greater understanding of God discipleship and mission Within this volume is an eclectic and fascinating sampling of theologizing from around the world diverse not just in context but in content dealing with everything from Christian education to engaging Buddhists with the gospel to engagement with Santería to contextualizing native dance As Christ's message has gone to the ends of the earth it has been received but also incorporated synthesized and rebirthed in new and exciting ways that will benefit us all wherever we live and serve

Reinventing the Middle School Thomas S. Dickinson, 2013-06-17 Many contemporary American middle schools are stuck in a state of arrested development failing to implement the original concept of middle schools to a varying though equally corruptive degrees The individual chapters of the book outline in detail how to counter this dangerous trend offering guidance to those who seek immediate significant internal reforms before we lose the unique value of middle schools for our nation's adolescents

Opportunities and Challenges of Interprofessional Collaboration and Education Jill Thistlethwaite, Peter Musaeus, Martina Mueller-Schilling, Sophie Schlosser, 2024-04-01 Interprofessional collaboration is essential in meeting today's health challenges which demand high flexibility and innovation Many health organizations including the World Health Organization WHO demand that interprofessional collaboration should be taught and learned globally Even so interprofessional education tools have not yet been widely implemented in the curricula of medical professions incl physicians nurses pharmacists physiotherapists etc this training usually takes place separately Collaboration is necessary in health professions education as it can allow professionals to increase their skills and help them achieve more than they would at an individual level Collaboration also allows for more open minded approaches when facing new ways of thinking When knowledge is shared healthcare employees are more encouraged to share their own ideas and concerns These

achievements of interprofessionalism within health profession education not only benefit the student and employee but also optimize patient care and increase patient safety Productivity can also be increased and therefore reduce costs overall
