## Star For The Latecomer:

**A Star for a Latecomer** Paul Zindel, 1989      *A Star for the Latecomer* Paul ZINDEL, 1991      **Star for the Latecomer**, **Latecomer Development** Banji Oyelaran-Oyeyinka, Padmashree Gehl Sampath, 2009-12-16 The most important issue for development centres on the debate about the centrality of knowledge technology and innovation to the process of economic development While this much is broadly agreed what is at issue is the precise mechanics of overcoming economic development challenges in different contexts At the heart of it all is about how economies at different levels deploy the unending streams of information and knowledge to developmental ends In time the notion of income convergence between the poorer South and the wealthy North has proved a mirage while a new economic divide has in fact occurred within the South itself and as well between regions and within regions The debate relating to latecomers is thus framed in discussions about regions and countries that arrive late to mastering industrialization in achieving economic prosperity through the use of knowledge In other words a new divide has emerged among the latecomers themselves and with it greater conceptual complexity in the ways of our understanding of the divergent ways of economic development We have thus separated fast followers and new late comers This book enters this debate acutely aware of the complexity of this process The authors argue that economic development is largely driven by innovation concentrating on the dynamics of process product and organizational changes and how they are embedded within specific and varied contextual institutions      **The New York Times Book Review**, 1981      **The Latecomer's Rise** Muyang Chen, 2024-06-15 In *The Latecomer's Rise* Muyang Chen reveals the nature and impact of a rapidly growing form of international lending Chinese development finance Over the past few decades China has become the world's largest provider of bilateral development finance Through its two national policy banks the China Development Bank CDB and the Export Import Bank of China China Exim it has funded infrastructure and industrial projects in numerous emerging markets and developing countries Yet this very surge and magnitude of capital has raised questions about the characteristics of Chinese bilateral lending and its repercussions on the international order Drawing on a variety of novel Chinese primary sources including interviews and official bank documents Chen pinpoints the distinctiveness of Chinese bilateral development finance explains its origins and analyzes its effects She compares Chinese policy banks with their foreign counterparts to show that the CDB and China Exim while state supported are in fact also market oriented they are as much government organs as they are profit driven financial agencies that serve both state and firms interests This approach which emerged out of China's particular economic history suggests that Chinese overseas lending is not merely a tool of economic statecraft that challenges Western led economic regimes Instead China's responses to extant rules norms and practices across given issue areas have varied between contestation and convergence Rich with empirical detail and penetrating insights *The Latecomer's Rise* demystifies the little known workings of Chinese development finance to revise our conceptions of China's role in the international financial system      **A Star for the Latecomer** Bonnie
