The Star Society Gabriella Saab,2026-01-06 Inspired by the indomitable spirit of Audrey Hepburn this gripping story follows two extraordinary sisters as they reunite after World War II embarking on a journey of justice survival and secrets amid the backdrop of the Red Scare in Hollywood A new name a new country and a coveted title as Hollywood s newest rising star by 1946 actress Ada Worthington Fox has discarded the life she left in war torn Arnhem where she worked for the Dutch resistance before Gestapo imprisonment prompted her to flee after release But that life is thrust back into the spotlight when Ingrid the sister she believed dead shows up on her doorstep Politically minded Ingrid escaped the Nazi invasion of Arnhem and fled to Washington DC where she became a private investigator Now she has been sent to root out Communist influences in Hollywood Her target Ada Worthington Fox the sister she long thought lost to her Ingrid must hide her true purpose as she shields Ada from sneaky reporters damaging rumors and increasing threats all while fighting to uncover which side her sister is truly on before Ingrid s efforts to help her are too late Yet Ada has her own mission locating the Gestapo agent who terrorized her hometown and bringing him to justice But delving into her past would risk alerting the press to a life too personal to expose As the rising fear of Communism threatens everyone she turns to her sister believing Ingrid s ties to Washington may be her only hope for success But the connections between Ada s elusive Nazi and Ingrid s Communist witch hunt might be stronger than they realize Both sisters share the darkest secret of all one that risks their very lives if ever exposed As they come closer to identifying Ada s target and as Ingrid s investigation intensifies they will need to decide what is more important justice or safety keeping silent or taking a stand and above all if their loyalty to one another is worth risking the post war lives they ve fought to build A thrilling historical novel that transports readers from the shadows of the Dutch resistance to the glitz and glamour of Hollywood **The Star People** Gaylord Johnson,2011-01-01

The Star People S. D. Nelson,2014-05-16 A grandmother s love is forever in *Star People* a picture book about remembrance and tradition from S D Nelson award winning author and member of the Standing Rock Sioux tribe A young Lakota Indian girl narrates the story of how she and her little brother Young Wolf survive a prairie fire School Library Journal A stirring original story based on Lakota legend The swirling images of the celestial dance beautifully reflect the story s celebration and awe of the natural world Booklist Sister Girl and her brother Young Wolf wander away from their village and soon find themselves far out in the surrounding prairie They sit down in the grass and watch the clouds passing above billow to form an eagle horses and other creatures We sat in the dry sweet smelling grass watching the clouds drift overhead Young Wolf pointed and said Sister Girl that cloud looks like a buffalo s head We both laughed with amazement There s an eagle I cried Suddenly animals begin to race past the children on the ground followed by a wall of fire Fleeing along with the frightened beasts Sister Girl and Young Wolf save themselves by tumbling into a shallow stream The fire leaves behind ash and a barren forbidding landscape The children realize that they are hopelessly lost Night is coming how will they get home

to their parents And why are the evening stars dancing so Drawing upon traditional Lakota ledger book art S D Nelson s illustrations bring to life a memorable new legend about the Star People Star People, Sky Gods and Other Tales of the Native American Indians G.W. Mullins,2018-02-05 In Native American history there are many legends about UFOs gods and aliens There has always been a connection between Native Americans and beings from other parts of the universe referred to as Star People Perhaps due to familiarity with celestial fixtures it has been easier for Native Americans to relate events they have experienced on earth with things such as the formation of the Pleiades The experience of tribal individuals with the Pleiades is featured quite prominently in legends across many tribes including Cherokee Onondaga Lakota and others It is not hard to believe they would identify an event with a star being the nature and history of tribes was to exist outdoors The night sky would be paid much more attention by one who did not live indoors Regardless of the tribe or the whether the interaction is through a god or star people there is proof that the ancient people of North America believed they have been visited by unexplainable beings from the heavens The stories in the collection tell of many different tribes and their experiences and the outcome of walking with these beings **Literary Societies Of Republican China** Kirk A.

Denton,Michel Hockx,1955-01-01 Literary Societies in Republican China provides a new and comprehensive perspective on the fascinating literary world of the most turbulent period in recent Chinese history the Republican era of 1911 1949 Wedged between the fall of the Empire and the founding of the Communist state the Republican period witnessed enormous social political and cultural changes Traditionally the period is seen as one of transition from the country being partially colonized and occupied to being an independent nation state from Confucianism to socialism from writing in classical Chinese to writing in the everyday vernacular Modern scholarship however has become suspicious of such attempts to analyze history including cultural history as a journey from A to B via C Instead attention has turned to the thick description of complex historical phenomena without worrying about whether or not they fit into some neat linear scheme Inevitably such scholarship benefits from collaboration and teamwork from the juxtaposition of different insights and different materials in order to gain in overall breadth Literary Societies in Republican China represents such teamwork and such breadth The thirteen essays by eleven scholars from North America Europe and Asia present detailed discussions of particular literary groups active on the Republican era literary scene Some of these groups are familiar representatives of what used to be considered the mainstream while others represent literary styles that have hitherto been considered marginal or that have been ignored altogether Each of the essays in this volume looks in detail at literary societies both as producers of literary views and texts and as organizations with sometimes very complex social structures The result is a unique blend of literary cultural and social history unrivalled in any English language scholarship on China to date **Women Journalists and Feminism in China, 1898-1937** Yuxin Ma,2010 A most remarkable change took place in the first half of the twentieth century in China women journalists became powerful professionals who championed feminist interests discussed national

politics and commented on current social events by editing independent periodicals. The rise of modern journalism in China provided literate women with a powerful institution that allowed them to articulate women's presence in the public space. In editing women's periodicals, women writers transformed themselves from traditional literary women to professional women journalists. In the period of 1898–1937, when journalism became increasingly independent of and resistant to state control, the women's media writings in the early decades of the twentieth century not only reveal the historical diversity and complexity of feminist issues in China but also cast light upon important feminist topics that have survived the Nationalist, Communist, and economic reform eras. Today's public debate on women's issues in Mainland China and Taiwan is shaped by past feminist discourse and uses a vocabulary and language familiar to readers of an earlier era. This book examines how women journalists constructed Chinese feminism and debated patriarchy and women's roles in the newly created public space of print media during the period of 1898–1937. It studies Chinese women's public writings in periodicals edited and staffed by women journalists in four major urban centers: Shanghai, Tokyo, Beijing, and Tianjin, at a time when urban society underwent major transformation and experienced drastic political, social, and cultural changes. The revolution that overthrew the imperial government in 1911, an attack on patriarchy by cultural radicals in 1915, 1919, and the advocacy of nationalism, liberalism, socialism, and feminism by intellectuals who received a Western-style education all worked together to undermine the Confucian notions of gender hierarchy, spatial separation of the sexes, and female domesticity among the well-educated urban classes. Doors of political participation, public activism, and production cracked open for courageous women who ventured into urban public spaces. From 1898 to 1937, urban women of the upper middle and working classes became increasingly visible at modern schools as well as in career and production fields, political activism, and women's movements. At the same time, women edited independent periodicals and championed women's rights. Women's periodicals provided a site where writers negotiated with nationalism, patriarchy, and party lines to define and defend women's interests. These early feminist writings captured how activists perceived themselves and responded to the social and political changes around them. This book takes a historical approach in its examination and uses gender as an analytical category to study the significance of women's press writings in the years of nation building. Treating women journalists as agents of change and using their media writings as primary sources, this book explores what mattered to women writers at different historical junctures as well as how they articulated values and meaning in a changing society and guided social changes in the direction they desired. It delineates the transformation of women journalists from political-minded Confucian gentry women to professional journalists and of women's periodicals from representing women journalists' views to addressing the concerns and needs of the majority of women. It analyzes how the concepts of feminism and nationalism were embodied with different, even contesting meanings at given historical junctures and how women journalists managed to advance various feminist agendas by tapping on the various meanings of nationalism. This is an important book for collections in Asian studies.
