societies represent the most superior examples of civilization. However, the Western value system stems from a misconception that as in nature human society too is evolving. The idea derives from the hidden influence of secret societies who followed the belief in spiritual evolution of the Kabbalah which taught that history would attain its fulfillment when man would become God and make his own laws. Therefore, the infamous Illuminati gave its name to the Enlightenment of the eighteenth century which claimed that human progress must abandon superstition meaning Christianity in favor of reason. Thus the Illuminati succeeded in bringing about the French and American revolutions which instituted the separation of Church and State and from that point forward the Western values of Humanism seen to include secularism, human rights, democracy and capitalism have been celebrated as the culmination of centuries of human intellectual evolution. This is the basis of the propaganda which has been used to foster a Clash of Civilizations where the Islamic world is presented as stubbornly adhering to the anachronistic idea of theocracy. Where once the spread of Christianity and civilizing the world were used as pretexts for colonization today a new White Man's Burden makes use of human rights and democracy to justify imperial aggression. However, because after centuries of decline the Islamic world is incapable of mobilizing a defense the Western powers as part of their age old strategy of Divide and Conquer have fostered the rise of Islamic fundamentalism to both serve as agent provocateurs and to malign the image of Islam. These sects known to scholars as Revivalists opposed the traditions of classical Islamic scholarship in order to create the opportunity to rewrite the laws of the religion to better serve their sponsors. Thus were created the Wahhabi and Salafi sects of Islam from which were derived the Muslim Brotherhood which has been in the service of the West ever since. But the story of the development of these Islamic sects involves the bizarre doctrines and hidden networks of occult secret societies being based on a Rosicrucian myth of Egyptian Freemasonry which see the Muslim radicals as inheritors of an ancient mystery tradition of the Middle East which was passed on to the Knights Templar during the Crusades thus forming the foundation of the legends of the Holy Grail. These beliefs would not only form the cause for the association of Western intelligence agencies with Islamic fundamentalists but would fundamentally shape much of twentieth century history.

Stars on the Earth Richard Leviton, 2006-08-18 Discover the wonderful secret the Earth holds for us that the stars of the galaxy live on our planet. Holograms of high magnitude stars over holy mountains. Physical travel to other planets through stargates on the Earth's surface. Near instantaneous transportation across the planet through quick way portals. Outrageous science fiction or sober geomantic fact. Earth Mysteries researcher Richard Leviton takes you on a wild tour of three geomantic features of our planet and reveals that what science fiction has dreamed the Earth in fact offers us. Stars on the Earth combines scholarship, clairvoyance and field experience with the latest discoveries of geology and astrophysics and the timeless insights of the world's myths to open the planetary door to the stars. It's all part of the Earth's unsuspected but staggeringly rich endowment as a designer planet. Our planet was precisely designed and implemented for us and it's equipped with a visionary geography that mirrors features of the galaxy and Heavens. Why are so

many of the Earth's mountains said to be holy producing visions and encounters with the gods. They all have canopies of light called domes each transmitting the presence of a galactic star. What is the geomantic origin of the Bermuda Triangle? Two dysfunctional stargates. If working properly they and the Earth's other two million stargates could transport us rapidly to other planets. Is there a way to travel quickly across the planet without using cars, airplanes, boats or trains? Yes and it's called a traversable wormhole and the Earth has thousands of them awaiting our discovery and use. Come join the tour of a planet you've never seen before our own star-infused Earth.

Investigating the Unexplained Paul Roland, 2001 An investigative journalist explores the most puzzling questions of all: The Great Pyramid and the Sphinx. Products of an ancient civilization or alien visitors? The Moon Landings. Has the United States truly sent men to the moon or was NASA's film an artificial environment with special effects? The Philadelphia Experiment. Scientific testing of radar during World War II or a science fiction fantasy? Roswell, New Mexico. Was there truly a close encounter with extraterrestrial beings in 1947? Investigative journalist and paranormal researcher Paul Roland examines the evidence and offers plausible explanations of these mysteries and many others in *Investigating the Unexplained*. In his exploration into the realm of the unknown he personally experienced such inexplicable phenomena as psychic surgery, remote viewing and past life regression. Including interviews with such authorities as Erich Von Daniken, UFO expert Jenny Randles and psychic spy David Morehouse among others, this one-of-a-kind book is truly a unique analysis into the world's most baffling enigmas.
