Yelaja,1985      **Social Work in Times of Neoliberalism**

Vishanthie Sewpaul, Dorothee Hölscher, 2004 Tracing the social political economic and ideological factors that have impacted the development of social work from both a global and a local perspective the authors identify the historical and contemporary conflicting and competing strands      Integrating Social Work Methods Harry Specht, Anne Vickery, 2021-11-07 Throughout its history social work has been seeking a means to state its purposes and methodology as a unity that transcends the purposes and methodology applicable in particular fields of practice or sanctioned by particular legislation or practised by a particular kind of worker Recent changes in society developments in social work practice new additions to the knowledge base of social work and current reorganisation of the social services had led to an intensified interest in this integrated approach Originally published in 1977 Integrating Social Work Methods introduces the reader to the main developments in the conceptualisation of a unitary method It clarifies what it is that is being unified identifies issues involved in the attempt to unify and discusses their implications for social work practice and training As such it represented the first substantial British text in the field and was widely welcomed by social work practitioners administrators and educators at the time      *Radical Social Work* Roy Victor Bailey, Roy Bailey, Mike Brake, 1975 Recession unemployment poverty urban decay delinquency vandalism alienation and inadequacy are everywhere evident in the advanced industrial countries The role of welfare agencies in ameliorating the less pleasant symptoms of western society is widely recognized as crucial to its preservation Social workers the frontline agents of the welfare state may well find that paradoxically the justification of their profession lies in the maintenance of a social and economic system that is the cause of the ills they are employed to confront and to which their everyday experience renders them fundamentally opposed These essays are radical because they explore ways in which social ills may be cured rather than concealed They challenge the relevance and long term effectiveness of received ideas in social work and social work education many of which remain rooted in the rapacious benevolence of Victorian philanthropy The authors attempt to formulate codes and practices that may provide more realistic solutions to the problems of the socially unfit At the same time they consider the questions that all social workers whether students or professionals radical or neutral must at some stage ask themselves How far can the needs of the single member be subsumed in the interests of his community How far can the requirements of political organization and conscientization of the oppressed override the immediate need to salve the distress of one family or individual How far can the means be sacrificed to the end      Social Work Education in Africa Nigel Hall, 1990      *Encyclopaedia of Social Work in India* , 1987
