Sustainability and the Social Fabric Clio Padovani, Paul Whittaker, 2017-09-07 While the topic of sustainability in textile manufacture has been the subject of considerable research much of this is limited to a focus on materials and practices and their ecological impact Padovani and Whittaker offer a unique exploration of the textile industry in Europe from the perspective of social sustainability shifting the focus from the materiality of textile production to the industry's relationships with the communities from which the products originate Featuring six in depth case studies from design entrepreneurs artisans and textile businesses around Europe from Harris Tweed in Scotland to luxury woollen mills in Italy Sustainability and the Social Fabric explores how new centres of textile manufacturing have emerged from the economic decline in 2008 responding creatively and producing socially inclusive approaches to textile production Case studies each represent a different approach to social sustainability and are supported by interviews with industry leaders and comparisons to the global textile industry Demonstrating how some companies are rebuilding the local social fabric to encourage consumer participation through education enterprise health and wellbeing the book suggests innovative business models that are economically successful and also in turn support wider societal issues Essential reading for students of textiles fashion design and related subjects this book will demonstrate how a business ecosystem that focuses on inclusive growth and social innovation can lead to sustained mutual benefit for textile industries and their local communities *Understanding the Social Fabric of Urban Communities and It's Relationship to Prosocial Behavior* Juliette Robyn Mackin, 1997 The Social Fabric John Henry Cary, Julius Weinberg, 1984 **The Sociology of Food and Agriculture** Michael Carolan, 2012-03-15 As interest has increased in topics such as the globalization of the agrifood system food security and food safety the subjects of food and agriculture are making their way into a growing number of courses in disciplines within the social sciences and the humanities like sociology and food studies This book is an introductory textbook aimed at undergraduate students and is suitable for those with little or no background in sociology The author starts by looking at the recent development of agriculture under capitalism and neo liberal regimes and the transformation of farming from a small scale family run business to a globalized system The consequent changes in rural employment and role of multinationals in controlling markets are described Topics such as the global hunger and obesity challenges GM foods and international trade and subsidies are assessed as part of the world food economy The second section of the book focuses on community impacts food and culture and diversity Later chapters examine topics such as food security alternative and social movements food sovereignty local versus global and fair trade All chapters include learning objectives and recommendations for further reading to aid student learning *The Social Fabric: American life from 1607 to the Civil War* John Henry Cary, 1978
