Social Interest And Categorical Structure:

Social Interest and Categorical Structure Jeffers Ward Chertok,1990 This volume explores diverse sociological conceptions of history and social change The diversity of views is explained in terms of the relationship between social interest and the categorical structure of social thought and is illustrated by examples from the works of Robert A Nisbet and Harry Braverman Socially structured variations of the general relationship are identified and explored **Right, Power, and Faquanism** Zhiwei Tong,2018-08-13 In Right Power and Faquanism Tong Zhiwei proposes that right and power are ultimately a unified entity which can be named faquan and that the purpose of law should be to establish a balanced faquan structure and to promote its preservation and proliferation Faquan is thus a jurisprudential category reflecting the understanding of the unity of right and power It has interest protected by the law and property with defined ownership as its content and manifests itself as the external forms of jural right freedom liberty jural power public function authority competence privilege and immunity etc Faquanism relies mainly on six basic concepts faquan right power quan residual quan and duty to analyze the content of interests and property in all legal phenomena **Gender and Power** Raewyn Connell,2014-05-15 This book is an important introductory textbook on sexual politics and an original contribution to the reformulation of social and political theory In a discussion of among other issues psychoanalysis Marxism and feminist theories the structure of gender relations and working class feminism Connell has produced a major work of synthesis and scholarship which will be of unique value to students and professionals in sociology politics women s studies and to anyone interested in the field of sexual politics Visit www.raewynconnell.net **Film Cultures** Janet Harbord,2002-11-18 Questioning how film connects us to social status and national and global affiliations this book argues that our tastes for film connect us to social spatial and temporal networks of exchange and meaning *The Cumulative Book Index* ,1990 A world list of books in the English language *A Theory of Legal Sentences* Manuel Atienza,J. Ruiz Manero,2012-12-06 Legal statements are according to the authors the most basic elements of the law Nevertheless they must be considered not only as the pieces of a puzzle but also as the components of a dynamic and highly complex reality the law of contemporary society The book presents an analysis of the different types of legal statements mandatory rules principles power conferring rules definitions permissions values and the rule of recognition from a threefold perspective that is considering their logical structure their function in legal reasoning as reasons for action and their connections with the interests and power relationships among the individuals and the social groups The result is conceived as a first step in the building of a general theory of law designed not as an isolated discourse but as a decisive element for the dynamization of the legal culture Sociological Abstracts ,1992 **Sociological Abstracts** Leo P. Chall,1997 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also

provides abstracts of books book chapters dissertations and conference papers **American Book Publishing Record**

phobias neuroses and anxiety disorders from ancient times to the present More people today report feeling anxious than ever
before even while living in relatively safe and prosperous modern societies Almost one in five people experiences an anxiety
disorder each year and more than a quarter of the population admits to an anxiety condition at some point in their lives Here
Allan V Horwitz a sociologist of mental illness and mental health narrates how this condition has been experienced
understood and treated through the ages from Hippocrates through Freud to today Anxiety is rooted in an ancient part of the
brain and our ability to be anxious is inherited from species far more ancient than humans Anxiety is often adaptive it enables
us to respond to threats But when normal fear yields to what psychiatry categorizes as anxiety disorders it becomes
maladaptive As Horwitz explores the history and multiple identities of anxiety melancholia nerves neuroses phobias and so on
it becomes clear that every age has had its own anxieties and that culture plays a role in shaping how anxiety is expressed
