## **Social Origins Of Modern Science:**

*The Social Origins of Modern Science* P. Zilsel, 2013-03-07 Edgar Zilsel 1891-1944 lived through the best of times and worst of times through the renewal of scientific optimism and humane politics and through the massive social collapse into idolatrous barbarism. With it all and with his personal and family crises in Vienna and later in America Zilsel was, I believe, a truly heroic indeed a model scholar of the first half of the 20th century. He was widely admired as a teacher at high schools in workers' education, in research tutoring and seminars. He was an original investigator on matters of the methodology of science and of the history of the sciences. He was a social and political analyst as a critical Marxist of the turmoil of Vienna in the 20s. Above all he achieved so much as a sociological historian who undertook research on two central facts of the early modern world: recognition of the creative individual and the ideal of genius and the conditions and realities of the coming of science to European civilization.

, 1873 **Science** John Michels (Journalist), 1889 Since Jan 1901 the official proceedings and most of the papers of the American Association for the Advancement of Science have been included in **Science**. The Edinburgh Review, Or Critical Journal: ... To Be Continued Quarterly, 1873 **Big Questions in History** Harriet Swain, 2006 What Wins Wars? Why Do Empires Rise And Fall? What Makes A Great Leader? What Causes Nationalism? How Do Spiritual Movements Spread? These Are Questions In The Forefront Of Our Minds Today. But They Meant Just As Much To People In The Past. How Did Earlier Generations Tackle Them? And How Far Can Historians Use The Lessons Of The Past To Help To Find Some Answers? Drawing On Examples Ranging From Ancient Greece To Tony Blair's Britain. Leading Historical Thinkers Address 20 Of The Really Big Questions That Have Been Asked Over The Centuries About The Course Of Human Events. While Richard Evans Asks What History Is, Ian Kershaw Considers How Personality Affects Politics. Lisa Jardine Looks At The Impact Of Technology On Social Change. Felipe Fernández-Armesto Measures The Influence Of Geography. David A Bell Assesses What Causes Nationalism. And Colin Renfrew Considers How Civilisations Develop. Others Examine Why Revolutions Happen. How Spiritual Movements Spread. Why Economies Collapse. How Intellectual Movements Start. And What Impact Our Physical Bodies And Our Private Lives Have On Changing History. Each Essay Is Accompanied By Commentary By A Journalist Discussing The Differing Views Of Other Leading Thinkers Today And In The Past. The Result Is A Stimulating Ride Over Continents And Across Centuries In Search Of Answers That Are Sometimes Surprising, Often Controversial And All Of Great Relevance To How We Live Today.
