Social Outsiders In Nazi Germany:

Social Outsiders in Nazi Germany Robert Gellately, Nathan Stoltzfus, 2018-06-05 When Hitler assumed power in 1933 he and other Nazis had firm ideas on what they called a racially pure community of the people. They quickly took steps against those whom they wanted to isolate, deport or destroy. In these essays informed by the latest research leading scholars offer rich histories of the people branded as social outsiders in Nazi Germany. Communists, Jews, Gypsies, foreign workers, prostitutes, criminals, homosexuals and the homeless, unemployed and chronically ill. Although many works have concentrated exclusively on the relationship between Jews and the Third Reich, this collection also includes often overlooked victims of Nazism while reintegrating the Holocaust into its wider social context. The Nazis knew what attitudes and values they shared with many other Germans and most of their targets were individuals and groups long regarded as outsiders, nuisances or problem cases. The identification, the treatment and even the pace of their persecution of political opponents and social outsiders illustrated that the Nazis attuned their law and order policies to German society's history and traditions. Hitler's personal convictions, Nazi ideology and what he deemed to be the wishes and hopes of many people came together in deciding where it would be politically most advantageous to begin. The first essay explores the political strategies used by the Third Reich to gain support for its ideologies and programs and each following essay concentrates on one group of outsiders. Together the contributions debate the motivations behind the purges. For example, was the persecution of Jews the direct result of intense, widespread anti-Semitism, or was it part of a more encompassing and arbitrary persecution of unwanted populations that intensified with the war? The collection overall offers a nuanced portrayal of German citizens, showing that many supported the Third Reich while some tried to resist and that the war radicalized social thinking on nearly everyone's part. In addition to the editors, the contributors are Frank Bajohr, Omer Bartov, Doris L. Bergen, Richard J. Evans, Henry Friedlander, Geoffrey J. Giles, Marion A. Kaplan, Sybil H. Milton, Alan E. Steinweis, Annette F. Timm and Nikolaus Wachsmann.

Hitler's "National Community" Lisa Pine, 2007-04-27 Provides a new and updated examination of German society under the Nazis, synthesizing a generation of scholarship to offer new insight into the key debates surrounding the subject. Beginning with a focus on Nazi attempts to forge a new national identity and awareness, the book goes on to consider the role and fate of all those excluded from this new national community. Author Lisa Pine interweaves her analysis of society with a look at the Nazis' post-war social legacy, supplying a fresh overview of a much-studied area.
