Socialism For A Sceptical Age:

Socialism for a Sceptical Age Ralph Miliband,2020-05-05 This outstanding and original volume offers a critical examination of a number of developments which in recent years have undermined the idea of socialism and eroded its electoral appeal Among these developments are the collapse of Communist regimes the fragmentation of the constituencies upon which earlier socialist advances had depended changes in the organization and the dynamics of capitalism and a dearth of agencies committed to the socialist project The book also takes up and seeks to rebut older objections to socialism such as the notion that it is inevitably totalitarian that it is based on too optimistic a view of human nature and that it fails to take account of the tendency of power to accumulate in the hands of minorities The book argues that a social order dominated by the logic of capital and competition cannot despite all the positive claims made on its behalf produce the conditions which make true citizenship and community possible By contrast socialism offers an attractive and feasible programme for the realization of those ideals Miliband argues that socialism cannot be seen as an answer to all the ills which have plagued humankind Socialism in his view has to be understood as part of an age old struggle for a more just society and he believes that seen in this light socialism remains not only desirable but also perfectly possible Moreover he believes socialism will in time come to command a majority support which its advancement requires Socialism has to be seen as a permanent striving for the achievement of democracy egalitarianism and the creation of an economy under democratic control

transformations because of its doubtful validity and deterministic implications Instead another fundamental conception in historical materialism the interaction between social circumstances and agency as the motive power of history is accentuated with an emphasis on agents experiences as a causal factor arguing its potential in terms of historical explanation and attempting to spell out some of its strategic implications for revolutionary socialism **Transnational Democracy** James Anderson,2002 A multidisciplinary array of experts explore the issues related to globalisation and democracy They focus on federalism multi cultural societies the European Union and potential agents for the democratisation of global institutions
