**Socialist Register 2005** Colin Leys, Leo Panitch, 2004 How does the new American empire work? Who runs it? How stable is it? What is the new American Empire's impact throughout the world? What is its influence on gender relations? On the media? On popular culture? This book provides the answers.      *Socialist Register* Ralph Miliband, Leo Panitch, John Saville,      *Intellectual Radicalism after 1989* Sebastian Berg, 2017-03-15 Left-wing intellectuals in Britain and the US had long repudiated the Soviet regime. Why was the collapse of the Eastern Bloc experienced as a shock that destabilised their identities and political allegiances? Then what happened to a collective project that had started out to formulate a socialist vision different from both really existing socialism and social democracy? This study endeavours to answer both questions, focusing on generational networks rather than individuals and investigating political academic journals after 1989 to paint the picture of a Left deeply troubled by the triumph of a capitalism unfettered by any counter force.

Sociological Worlds Stephen K. Sanderson, 2013-10-31 This reissue of the now classic *Sociological Worlds* originally published in 1995 attempts to present a comprehensive picture of human social life from the perspective of the comparative historical revolution in sociology and presents some of the best theoretical and empirical work that is now being done by comparative historical sociologists as well as work by their close cousins, socio-cultural anthropologists. From this perspective, readers gain a picture of the major ways in which human societies differ. For this new library edition, Professor Sanderson has provided both a new preface and three contributions that did not appear in the original edition.      *Socialist Perspective*
