Social Geographies Gill Valentine, 2014-06-06 Most social geography undergraduate textbooks are structured around different social categories splintering the discussion of gender class race and increasingly now sexuality and disability into separate chapters This has the effect firstly of making social relations rather than space the *raison d'être* of human geography the focus of undergraduate books secondly of ignoring the way that social relations are negotiated and contested in different space Rather than reproducing this conventional social geography format the aim of this proposed text is to make space the focus of analysis In doing so the

intention is to make complex theoretical debates about space more accessible to students and encourage them to look at their own environments in new ways Social Geographies Ruth Panelli, 2003-12-16 How do we describe ourselves Where have we do we will we live our lives Why are the differences between people a source of tension How can social change occur Social geography can assist in addressing these questions It provides ways of understanding and living in our contemporary world Providing students with the resources to understand both the theoretical and empirical approaches social geographers take when investigating social difference this text outlines key theoretical approaches and traces the core geographies of difference class gender race ethnicity and sexuality It concludes by showing how geographers work across these ideas of difference to understand questions of identity power and action Using illustrative examples from around the world Social Geographies includes Individual chapters on the main theoretical approaches to difference Individual chapters on the key concepts of identity power and action Reviews of the core literature with suggestions for further reading Biographies of key contemporary social geographers Glossary of key terms For students beginning human geography courses or in social geography modules this book is the essential primer Social Geographies of Educational Change F.
