Societal Issues Scientific Viewpoints:

International Handbook of Research on Multicultural Science Education Mary M. Atwater, 2022-06-30 This handbook gathers in one volume the major research and scholarship related to multicultural science education that has developed since the field was named and established by Atwater in 1993 Culture is defined in this handbook as an integrated pattern of shared values beliefs languages worldviews behaviors artifacts knowledge and social and political relationships of a group of people in a particular place or time that the people use to understand or make meaning of their world each other and other groups of people and to transmit these to succeeding generations The research studies include both different kinds of qualitative and quantitative studies The chapters in this volume reflect differing ideas about culture and its impact on science learning and teaching in different K 14 contexts and policy issues Research findings about groups that are underrepresented in STEM in the United States and in other countries related to language issues and indigenous knowledge are included in this volume

World Regional and Cultural Footprints and Environmental Sustainability Ebenezer O. Aka, 2017-04-26 The book examines the issues of sustainability in general It addresses various socioeconomic determinants of ecological footprints in different world s nations regions and cultures Major socioeconomic determinants of ecological footprints are fleshed out using Comparative Model Analysis and rigorous Multiple Regression Analysis The study exposes the inequitable distribution of the world s ecological footprints and also heightens the concern about ecological imbalances and overshoots It explains how sustainable development can be promoted and achieved in regional national and local jurisdictions The study provides information that will likely help various governments and policy makers determine if a given nation region or culture is on a sustainable path It helps government leaders planners policy makers and even students of sustainability make a difference in mitigating the effects of various environmental stressors If this book makes people and policy makers in different countries regions and cultures think globally but act locally then the objectives are well served
