Wiegand,2024-08-30 Librarians around the country are currently on a battleground defending their right to purchase and circulate books dealing with issues of race and systemic racism Despite this work the library community has often overlooked even ignored its own history of White supremacy and deliberate inaction on the part of White librarians and library leadership Author Wayne A Wiegand takes a crucial step to amend this historical record *In Silence or Indifference Racism and Jim Crow Segregated Public School Libraries* analyzes and critiques the world of professional librarianship between 1954 and 1974 Wiegand begins by identifying racism in the practice and customs of public school libraries in the years leading up to the *Brown v Board of Education* decision This culture permeated the next two decades as subsequent Supreme Court decisions led to feeble and mostly unsuccessful attempts to integrate Jim Crow public schools and their libraries During this same period the profession was honing its national image as a defender of intellectual freedom a proponent of the freedom to read and an opponent of censorship Still the community did not take any unified action to support *Brown* or to visibly oppose racial segregation As Black school librarians and their Black patrons suffered through the humiliations and hostility of the Jim Crow educational establishment the American library community remained largely ambivalent and silent The book brings to light a distressing history that continues to impact the library community its students and its patrons Currently available school library literature skews the historical perspective that informs the present *In Silence or Indifference* is the first attempt to establish historical accountability for the systemic racism contemporary school librarianship inherited in the twenty first century
