Converging on Culture Delwin Brown, Sheila Greeve Davaney, Kathryn Tanner, 2001 This text brings together scholars from theological perspectives to analyse theories cultural movements. The first part examines theoretical relationships between theology and cultural studies and the second consists of theological analyses **Articulated Experiences** Peyman Vahabzadeh, 2012-02-01 By reexamining the very foundations of everyday acting and thinking and stepping into the open expanse of a possible transition to a postmodern era this book presents a radical phenomenological approach to the study of contemporary social movements. It offers a theory of acting that refuses to surrender to norms and legislations and thus always intimates a mode of thinking that challenges various manifestations of ultimacy. Vahabzadeh invites us to radically rethink many basic principles that inform our lives such as the democratic discourse the concept of rights liberal democratic regimes time and epochs oppression acting and the practice of sociology in an effort to instate a reworked concept of experience in theories about social movements

Mexico Under Siege Donald Hodges, Ross Gandy, 2002-08 Mexico Under Siege is a readable and well informed political history covering the period from the ruling PRI's lurch to the right in 1940 through to its eventual expulsion from office in the elections of 2000. Based on two decades of interview material and new documentary sources this book is the first to consider the full panorama of popular resistance to the alliance between the Mexican state bureaucracy the president and the business class. This resistance embraced emerging urban labour protest new peasant movements revolutionary strikes on the railways and in schools student opposition and the re emergence of guerrilla struggle culminating in the celebrated indigenous peoples resistance in Chiapas. Mexico Under Siege analyses the core parties of the resistance including the surprisingly central role of the Mexican Communist Party and explains why resistance achieved no more than ending the PRI's system of presidential despotism. Hodge and Gandy conclude with some provocative ideas about who now constitutes the common people's primary opponent and examine the prospects for genuine struggle in an electoral arena where neo liberal economic ideology and the Mexican economy's closer integration with the United States dominate the political scene
