THE TENTH MUSE Sir Herbert Edward Read,1957 *The Tenth Muse, Essays in Criticism, by Herbert Read* Herbert Read,1957 Kropotkin, Read, and the Intellectual History of British Anarchism M. Adams,2015-06-04 Although marginal as a political force, anarchist ideas developed in Britain into a political tradition. This book explores this lost history, offering a new appraisal of the work of Kropotkin and Read and examining the ways in which they endeavoured to articulate a politics fit for the particular challenges of Britain's modern history.

Abstraction in Post-War British Literature 1945-1980 Natalie Ferris,2022-03-29 In a catalogue note for the 1965 exhibition *Between Poetry and Painting* at the Institute of Contemporary Arts, the poet Edwin Morgan probed the relationship between abstraction and literature. Abstract painting can often satisfy, but abstract poetry can only exist in inverted commas. Language may be fragmented, rearranged, or distorted, abstract in so far as it is withdrawn from a particular system of knowledge, but Morgan was of the mind that to be wholly disruptive was to deprive a poem of its point as an object of contemplation. Whilst abstract art may have come to fulfil or fortify an impression of post-war taste, abstraction in literature continued to be treated with suspicion. But how does this speak to the extent to which Britain's literary culture was responsive to progress compared to its artistic culture? **Abstraction in Post War British Literature 1945-1980** traces a line of literary experimentation in post-war British literature that was prompted by the aesthetic, philosophical, and theoretical demands of abstraction. Spanning the period 1945 to 1980, it observes the ways in which certain aesthetic advancements initiated new forms of literary expression to posit a new genealogy of interdisciplinary practice in Britain. At a time in which Britain became conscious of its evolving identity within an increasingly globalised context, this study accounts for the range of Continental and Transatlantic influences in order to more accurately locate the networks at play. Exploring the contributions made by individuals such as Herbert Read, Ian Hamilton Finlay, and Christine Brooke-Rose, as well as by groups of practitioners, it brings a wide range of previously unexplored archival material into the public domain and offers a comprehensive account of the evolving status of abstraction across cultural, institutional, and literary contexts.

Encyclopedia of the Essay Tracy Chevalier,2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length. The more than 500 entries by 275 contributors include entries on nationalities, various categories of essays such as generic (such as sermons, aphorisms, individual major works, notable writers, and periodicals) that created a market for essays, and particularly famous or significant essays. The preface details the historical development of the essay, and the alphabetically arranged entries usually include biographical sketch, nationality, era, selected writings, list of additional readings.
