Terra Firma 1901:

Terra Firma 1901 David Wardlaw Scott, 2014-03 This Is A New Release Of The Original 1901 Edition *Winston S. Churchill: Young Statesman, 1901-1914* Randolph S. Churchill, 2015-04-06 The second volume in this magisterial achievement of political biography chronicles Churchill's days in Parliament up to the outbreak of WWI Andrew Roberts historian and author of *The Storm of War* Written by Winston S Churchill's son Randolph the second volume of this authoritative eight volume biography begins as Churchill takes his seat in the House of Commons at the age of twenty six An independent spirit and rebel his maiden speech received cheers from the Leader of the Opposition In the years leading up to the Great War Churchill was at the center of British political life At the Home Office he introduced substantial prison reforms and took a lead in curbing the powers of the House of Lords At the Admiralty beginning in 1911 he helped build the Royal Navy into a formidable fighting force He learned to fly and founded the Royal Naval Air Service He was also active in attempts to resolve the Irish Question and to prevent civil war in Ireland In 1914 as war in Europe loomed Churchill wrote to his wife from the Admiralty The preparations have a hideous fascination for me yet I would do my best for peace and nothing would induce me wrongfully to strike the blow I cannot feel that we in this island are in any serious degree responsible for the wave of madness which has swept the mind of Christendom When war came the fleet was ready It was one of Churchill's greatest early achievements A milestone a monument rightly regarded as the most comprehensive life ever written of any age Andrew Roberts historian and author of *The Storm of War* The most scholarly study of Churchill in war and peace ever written Herbert Mitgang *The New York Times* *The Dark Side of Speech* Carlo Penco, 2024-10-08 What is disinformation and why does it matter How can we understand and detect different kinds of disinformation With an analysis of relevant events of the period 2012-2022 the book attempts to answer these questions The book is organized into four parts 1 The first part presents the notions of post truth and fake news using some of the most recent critical studies analyzing some typical examples and the environment in which some of them originated 2 The second part introduces the notion of conspiracy theory and describes the emergence of the idea of white supremacy and its ramifications together with the narratives developed during the COVID restrictions 3 The third part describes the emergence of the algorithms behind social networks and their role in propaganda making examples of US and European elections and the Brexit referendum An analysis of Cambridge Analytica shows the tip of an iceberg of disinformation that is spreading around the world Some remarks by comedians and philosophers help to give a new view on the concept of freedom of speech with particular attention to the more and more difficult freedom of the press 4 The fourth part gives some emergency tools for detecting disinformation at an individual level understanding the most hidden mechanisms of disinformation and the biases that almost unavoidably enter our minds These tools come from the results both of traditional theories and the most recent social philosophy of language not despising references to statistics This is a fundamental book for having a general survey of this period of political turmoil

consulting a wide list of references and official documents and having a grasp of the means of intellectual self defense This book is non standard it relies on the most sophisticated theories of language and yet it gives everything in simple and colloquial language Differently from sophisticated analyses of linguistic phenomena it gives the feeling of participating in a tour around what happened in the last decade with a disenchanted eye that uses some results of the critical literature without compelling one to become a theoretician in the field of philosophy or critical analysis The hidden focus of the book is freedom of speech and freedom of thought and what they mean today in an era of more sophisticated and widespread disinformation permitted by the algorithms governing social networks
