## **Tepper Isn't Going Out:**

*Tepper Isn't Going Out* Calvin Trillin, 2002-01-15 Murray Tepper would say that he is an ordinary New Yorker who is simply trying to read the newspaper in peace. But he reads while sitting behind the wheel of his parked car and his car always seems to be in a particularly desirable parking spot. Not surprisingly, he is regularly interrupted by drivers who want to know if he is going out. Tepper isn't going out. Why not? His explanations tend to be rather literal: the indisputable fact, for instance, that he has twenty minutes left on the meter. Tepper's behavior sometimes irritates the people who want his spot. Is that where you live? Is that car rent controlled? It also irritates the mayor, Frank Ducavelli, known in tabloid headlines as Il Duce, who sees Murray Tepper as a harbinger of what His Honor always calls the forces of disorder. But once New Yorkers become aware of Tepper, some of them begin to suspect that he knows something they don't know. And an ever increasing number of them are willing to line up for the opportunity to sit in his car with him and find out. *Tepper Isn't Going Out* is a wise and witty story of an ordinary man who perhaps innocently changes the world around him.

**BONUS** This edition contains an excerpt from Calvin Trillin's *Quite Enough* of *Calvin Trillin*. *Tepper Isn't Going Out* Calvin Trillin, 2003 Murray Tepper would say that he is an ordinary New Yorker who is simply trying to read the newspaper in peace. But he reads while sitting behind the wheel of his parked car and his car always seems to be in a particularly desirable parking spot. Not surprisingly, he is regularly interrupted by drivers who want to know if he is going out.

In this no-holds-barred treatise, Donald Shoup argues that free parking has contributed to auto dependence, rapid urban sprawl, extravagant energy use, and a host of other problems. Planners mandate free parking to alleviate congestion but end up distorting transportation choices, debasing urban design, damaging the economy and degrading the environment. Ubiquitous free parking helps explain why our cities sprawl on a scale fit more for cars than for people and why American motor vehicles now consume one eighth of the world's total oil production. But it doesn't have to be this way. Shoup proposes new ways for cities to regulate parking, namely charge fair market prices for curb parking, use the resulting revenue to pay for services in the neighborhoods that generate it, and remove zoning requirements for off-street parking. Such measures, according to the

Yale trained economist and UCLA planning professor will make parking easier and driving less necessary Join the swelling ranks of Shoupistas by picking up this book today You ll never look at a parking spot the same way again **The Nation**
