Gordon Rattray Taylor

The Biological Time Bomb:

The Biological Time Bomb Gordon Rattray Taylor, 1968 **Cognitive Linguistics** M. Sandra Peña Cervel, Francisco J. Ruiz de Mendoza Ibáñez, 2008-08-22 The book testifies of the great tolerance of Cognitive Linguists towards internal variety within itself and towards external interaction with major linguistic subdisciplines Internally it opens up the broad variety of CL strands and the cognitive unity between convergent linguistic disciplines Externally it provides a wide overview of the connections between cognition and social psychological pragmatic and discourse oriented dimensions of language which will make this book attractive to scholars from different persuasions The book is thus expected to raise productive debate inside and outside the CL community Furthermore the book examines interdisciplinary connections from the point of view of the internal dynamics of CL research itself CL is rapidly developing into different compatible frameworks with extensions into levels of linguistics description like discourse pragmatics and sociolinguistics among others that have only recently been taken into account in this orientation The book covers two general topics i the relationship between the embodied nature of language cultural models and social action ii the role of metaphor and metonymy in inferential activity and as generators of discourse ties More specific topics are the nature and scope of constructional meaning language variation and cultural models discourse acts the relationship between communication and cognition the argumentative role of metaphor in discourse the role of mental spaces in linguistic processing and the role of empirical work in CL research These features endow the book with internal unity and consistency while preserving the identity of each of the contributions therein

Time-bomb Doc Taylor, 1968 *Bioethics in America* M. L. Tina Stevens, 2000-10-06 In *Bioethics in America* Tina Stevens challenges the view that the origins of the bioethics movement can be found in the 1960s a decade mounting challenges to all variety of authority Instead Stevens sees bioethics as one more product of a centuries long cultural legacy of American ambivalence toward progress and she finds its modern roots in the responsible science movement that emerged following

detonation of the atomic bomb Rather than challenging authority she says the bioethics movement was an aid to authority in that it allowed medical doctors and researchers to proceed on course while bioethicists managed public fears about medicine's new technologies That is the public was reassured by bioethical oversight of biomedicine in reality however bioethicists belonged to the same mainstream that produced the doctors and researchers whom the bioethicists were guiding
