The Breathing Planet Language Library:

Psalms Book 2: An Earth Bible Commentary Arthur Walker-Jones, 2019-10-03 Arthur Walker Jones presents an Earth focused reading of the second book of Psalms focusing upon the many nonhuman animals that appear repeatedly within the text. In the first commentary to explore the implications of the natural and cultural history of animals for the interpretation of Psalms, Walker Jones moves beyond the standard treatment of animals as mere metaphors for human concerns or background to human stories. Instead, Walker Jones draws upon the interdisciplinary field of animal studies, incorporating this into ecocritical analysis and arguing for the similarity between the two approaches, including recognizing that the oppression and liberation of humans is interrelated with the oppression and liberation of Earth and all its creatures. Walker Jones looks at foxes, sheep, goats, cattle, doves, snakes, lions, snails, dogs, and deer, which all appear in Psalms 42-72, taking into account that many of these animals co-evolved with humans and created the particular ecological niche of the highlands east of the Mediterranean. Perceiving Earth in various ways as refuge, as enemy, as Rock, and as fertile and joyous, this volume brings an entirely new ecological perspective to the Psalms.

Eugene Peterson's Spiritual Theology series provides a completely fresh evaluation of Christian Spirituality, past, present, and future. The best-selling author of THE MESSAGE draws on the very latest scholarship and understanding of biblical revelation and will represent the most thorough and significant work on contemporary Christian Spirituality by an evangelical author. Most writings in the field of spiritual theology represent mere dabblings. The more significant endeavours are impenetrably academic. Peterson's masterwork, which has been years in the making, is designed for those who are comfortable with being stretched, as well as pastors, academics, and lay leaders.
