The American Monthly Review of Reviews, 1900 **Piety and Family in Early Modern Europe** Marc R. Forster, 2017-05-15 At first sight the subjects of piety and family life may appear to have little in common Yet as the essays in this volume make clear there are in fact a number of shared features and points of contact that make the study of these issues a particularly fertile area for scholars of the Reformation period Whether it be the concept of an individual's relationship with God so often articulated in familial terms the place of domestic devotions or the difficulties that faced

families split by rival confessional beliefs and mixed marriages this book demonstrates how piety and family life were interwoven in the social and theological landscape of early modern Europe Inspired by the works of Steven Ozment the volume is divided into two sections each of which deals with a particular concern of his writings The first four chapters address issues of Reformation theology and the medieval heritage whilst the remaining seven examine the spiritual life of families Together they underline how modern scholarship by broadening its conceptual outlook and bringing together seemingly unrelated subjects can provide a more sophisticated understanding of the past
