The California Wine

Ed McCarthy, Mary Ewing-Mulligan

The California Wine:

A Companion to California Wine Charles L. Sullivan, 1998-10-01 California is the nation's great vineyard supplying grapes for most of the wine produced in the United States. The state is home to more than 700 wineries and California's premier wines are recognized throughout the world. But until now there has been no comprehensive guide to California wine and winemaking. Charles L. Sullivan's *A Companion to California Wine* admirably fills that gap. Here is the reference work for consumers, wine writers, producers and scholars. Sullivan's encyclopedic handbook traces the Golden State's wine industry from its mission period and Gold Rush origins down to last year's planting and vintage statistics. All aspects of wine are included and wine production from vine propagation to bottling is described in straightforward language. There are entries for some 750 wineries both historical and contemporary, for more than 100 wine grape varieties from Aleatico to Zinfandel, and for wine types from claret to vermouth, all given in a historical context. In the book's foreword, the doyen of wine writers, Hugh Johnson, tells of his own forty year appreciation of California wine and its history. Charles Sullivan's *Companion* he adds, will provide the grist for debate, speculation and reminiscence from now on. With admirable dispassion, he sets before us just what has happened in the plot so far.

The New California Wine Jon Bonné, 2013-11-05 A comprehensive guide to the must-know wines and producers of California's new generation and the story of the iconoclastic young winemakers who have changed the face of California viticulture in recent years. *The New California Wine* is the untold story of the California wine industry, the young innovative producers who are rewriting the rules of contemporary winemaking, their quest to express the uniqueness of California terroir and the continuing battle to move the state away from the overly technocratic, reactionary practices of its recent past. Jon Bonné writes from the front lines of the California wine revolution, where he has access to the fascinating stories, philosophies and techniques of top producers. Part narrative, part authoritative purchasing reference, *The New California Wine* is a necessary addition to any wine lover's bookshelf.

A Technologist Views the California Wine Industry Maynard Alexander Joslyn, 1974 **The Grapes of Conquest** Julia Ornelas-Higdon, 2023-11 Honorable Mention for the 2024 OAH Frederick Jackson Turner Award California's wine country conjures images of pastoral vineyards and cellars lined with oak barrels As a mainstay of the state's economy California wines occupy the popular imagination like never before and drive tourism in famous viticultural regions across the state Scholars know remarkably little however about the history of the wine industry and the diverse groups who built it In fact contemporary stereotypes belie how the state's commercial wine industry was born amid social turmoil and racialized violence in eighteenth and nineteenth century California In The Grapes of Conquest Julia Ornelas Higdon addresses these gaps in the historical narrative and popular imagination Beginning with the industry's inception at the California missions Ornelas Higdon examines the evolution of wine growing across three distinct political regimes Spanish Mexican and American through the industry's demise after Prohibition This interethnic study of race and labor in California examines how California Natives Mexican Californios Chinese immigrants and Euro Americans came together to build the industry Ornelas Higdon identifies the birth of the wine industry as a significant missing piece of California history one that reshapes scholars understandings of how conquest played out how race and citizenship were constructed and how agribusiness emerged across the region The Grapes of Conquest unearths the working class multiracial roots of the California wine industry challenging
