Pete May's sound advice and no nonsense approach will help you achieve results that will wow audiences whether they're gathered in the family room or the corporate boardroom. The Essential Digital Video Handbook takes you through every step of the process from buying the right equipment to editing footage. This book shares tips on achieving professional quality results by understanding and exploiting visual language both by initially following the rules and then by breaking them with style and confidence. Videographers will also learn to sound like professionals by understanding and speaking the language of the business. Instead of narrowly focusing on just the latest equipment and technology, May uses lessons he learned during twenty-five years in the television business to drill down to the most important stuff: the principles that don't change and the tricks behind making videos that document, entertain, train, motivate, persuade, satisfy, and even have the ability to make money. *Popular Photography*, 1992-01      Popular Photography, 1992-02      **Popular Photography**, 1992-12

**Popular Photography**, 1993-01      **Hand-held Visions** DeeDee Halleck, 2002 For almost forty years DeeDee Halleck has been involved in a variety of projects that involve media making by non-professionals. Her goal has been to develop a critical sense of the potential and limitations of mediated communication through practical exercises that generate a sense of both individual and non-hierarchical group power over the various apparatuses of media and electronic technology. *Hand Held Visions* is a collection of essays, presentations, and lectures that she has written throughout this process. Halleck starts with a discussion of her own development as a teacher, producer, and an active participant in the struggle for media democracy. She gives the reader a historical first-person perspective on the community-based media movement and a sense of the determination and resolve that have enabled often fragile and much embattled organizations and individuals to survive in a climate dominated by global media corporations that are in direct opposition to their work. *Popular Photography*, 1993-03
