## The Campaign

**Brendan G. Carr**

## **The Campaign:**

*The Campaign of Waterloo* John Codman Ropes, 1892

Senators on the Campaign Trail Richard F. Fenno, 1998-02-01

This is a book about the politics of representative democracy written from the perspective of the politicians who make it work. Typically political scientists study campaigns from the perspective of the voter and for the purpose of explaining election outcomes. But campaigns also need to be studied from the perspective of the candidate for the purpose of understanding representation. Richard F. Fenno Jr. traveled with ten U.S. senators as they campaigned in their home states using what he calls the drop in, drop out, tag along, hang around method of research to present a developmental picture of their activities. His focus here is on three such activities: pursuing a career, campaigning for office, and building constituency connections. Taken together, the three constitute the political underpinnings of representative democracy. Fenno describes the achievement, the testing, and the maintenance of representational relationships. He examines challengers and incumbents, winners and losers, and motivations, strategies, and behaviors, and he reports on differences, similarities, and patterns among them. In studying the candidates' varied careers, campaigns, and connections in stages and sequences and in depth, and in allowing us to hear them reflect on these experiences, Fenno has been able to offer rare insights into campaigns and elections insights very different from conventional ones that concentrate on the behavior of voters. In its focus on the process of representative democracy, *Senators on the Campaign Trail* offers a rich, rounded developmental view of some high-level individuals who work at the business of representation. For scholars, the book suggests some qualitative confirmation and added stimulation in forging generalizations about politicians. For citizens, the book argues for replacing the conventional blanket condemnation of our politicians so prevalent today with more discriminating judgments about what they do and why and to what purpose they do it.

**The Tale of the Campaign of Igor**, 1973    **Campaigns and Elections** Stephen K. Medvic, 2021-11-29

Stephen K. Medvic's *Campaigns and Elections* is a comprehensive yet compact core text that addresses two distinct but related aspects of American electoral democracy: the processes that constitute campaigns and elections and the players who are involved. In addition to balanced coverage of process and actors, it gives equal billing to both campaigns and elections and covers contests for legislative and executive positions at the national, state, and local levels, including issue-oriented campaigns of note. The book opens by providing students with the conceptual distinctions between what happens in an election and the campaigning that precedes it. Significant attention is devoted to setting up the context for these campaigns and elections by covering the rules of the game in the American electoral system as well as aspects of election administration and the funding of elections. Then the book systematically covers the actors at every level: candidates and their organizations, parties, interest groups, the media, and voters, and the macro-level aspects of campaigns such as campaign strategy and determinants of election outcomes. The book concludes with a big-picture assessment of campaign ethics and implications of the permanent campaign. New to the Fourth Edition: Fully updated through the 2020 elections, looking ahead to the 2022 midterms. Covers

the impact of the COVID 19 pandemic on the 2020 election as well as the January 6 2021 insurrection at the US Capitol Adds new sections in Chapter 3 on election integrity and the assessment of election administration Reviews recent Supreme Court cases on gerrymandering and faithless electors Expands coverage of social media as a source of news of the increasingly partisan nature of the media and of the role of media fact checking in campaigns and elections Reorganizes the chapters on the various actors so that the chapter on candidates leads directly to the chapter on campaigns Fully updates the resources listed at the end of each chapter
