**The Canal Age** Charles Hadfield,1968    **Canal Ports** John Douglas Porteous,1977    [The Canal Age, By Charles Hadfield](#) Charles Hadfield,1969    *Home on the Canal* Elizabeth Kytle,1996-03 The history of the C O Canal in Maryland along the Potomac River including summaries of interviews with eleven men and women who had lived or worked on the canal while it was in operation    **An Encyclopaedia of British Bridges** David McFetrich,2019-04-30 An already impressive reference work has been made significantly more valuable a well illustrated alphabetized compendium of notable bridges The Happy Pontist Bridges have a universal appeal as examples of man s mastery of nature from picturesque packhorse bridges to great spans stretching across broad estuaries and the development of the technology that allows ever more audacious constructions is never ending Of the million or more bridges throughout Great Britain David McFetrich has selected those that are significant in terms of their design construction or location or of their connections with people or events of history His definitive book contains 1 600 separate entries for individual bridge sites or related groups of bridges covering more than 2 000 different structures 165 general entries about different types of bridge and such topics as collapses and failures and a summary of about 200 record holding bridges in 50 different categories The concise text is supported by more than 900 illustrations and diagrams The result is a fascinating and readily accessible compendium The Institute of Civil Engineers ICA is also on board A valuable resource to use if you plan to visit some of these structures while on holiday or are merely planning a day out East Yorkshire Family History Society Well written and researched and eminently readable Because of the ubiquity of bridges throughout Great Britain this volume should have wide appeal NZ Crown Mines Full of details covering the many bridges around the UK I found it fascinating to see the variety of bridges around Britain even the ones not railway related Rail Advent    [The Railway Age ,1900](#)    **The Living Age ,1870**    **Transport in Britain** Philip Bagwell,Peter Lyth,2006-10-15 Highlighting long term themes in Britain s transport history this book looks at the dilemmas facing modern society and suggests several possible solutions It covers all the major forms of transport from the horse to the aeroplane setting them in their historical context    **New York's Erie Canal** Patricia Drake,2014-07-15 This fascinating book based on current research scrutinizes the Erie Canal and the pivotal role it played in shaping the economic geographic and political growth of New York State Explores the planning building and success of this historic canal Demonstrates how existing towns expanded and new towns grew along the canal The text provides students with a hands on look at how the canal was built the impact it had on commerce how people use it today and its far reaching influence on the development of New York State Primary sources photographs and maps help readers grasp the significance of the canal and the how it helped shaped New York State and the country    **Transport in the Industrial Revolution** Derek Howard Aldcroft,1983

**Approaches to Coastal Wetland Restoration** Robert Eugene Turner,Bill Streever,2002 Wetlands Lost The 1 879 thousand hectares of coastal wetlands in the Gulf of Mexico GOM comprise 58% of the U S coastal wetland total Turner and

Gosselink 1975 These wetlands occur in every GOM state although two thirds of the GOM total are in Louisiana and are typically associated with estuaries bays rivers and the lee side of barrier islands The objective of this book is to facilitate and encourage the restoration of these and other wetlands by reviewing the details of construction and costs which can range from 1 to 45 000 per hectare and by evaluating case studies for levels of success Each approach is presented in brief chapters outlining the essential points of what why and how the approach can be planned and implemented The driving purpose or goal of this book is to accelerate regional wetland gains and to promote cost effective practices in wetland restoration Why do we think that this book is necessary The area of wetlands has been diminishing almost everywhere for the last several hundred years but particularly this century as the twin juggernauts of population growth and per capita resource exploitation expanded In 1927 as the Great Depression in the U S was about to start there were 2 billion people on the planet There were 6 billion people on the Earth in the year 2000 and by 2054 there will be 9 billion Two hundred years ago there were 89 5 million ha of wetlands in the contiguous 48 U S states Dahl 1990 By 1997 this area had shrunk to 42 7 million ha Dahl 2001 From the 1970s to the mid 1980s the annual wetland loss rate was 117 400 ha Dahl and Johnson 1991 The official national policy of no net loss may be why the wetland loss rate slowed to 23 7 thousand ha yr 1 from 1986 to 1997 Dahl 2001 Although wetland loss rates have also declined in coastal Louisiana in recent years Louisiana experienced particularly high coastal wetland loss rates of 12 5 thousand ha yr 1 0 86% yr 1 from 1956 to 1978 Baumann and Turner 1990 Thus wetland loss has become a national concern National Research Council 1991 Dahl 2001 National Research Council 2001 and particularly in the northern Gulf of Mexico We hope to contribute to the reversal of these wetland losses by presenting wetland restoration and creation approaches appropriate for the Northern Gulf of Mexico and perhaps elsewhere taken from the introduction **The Medical Age** ,1883 **The Railway Age** ,1906 **Gas Age** ,1897 Includes summaries of proceedings and addresses of annual meetings of various gas associations L C set includes an index to these proceedings 1884 1902 issued as a supplement to Progressive age Feb 15 1910 **Littell's Living Age** Eliakim Littell,Robert S.
