Illustrated and indexed      **Dogod** Bill Reed, 2015-04-02 Ed following is the Thomas Nelson Australia's 1977 blurb for the original edition but here annotated in italics by the author for this reprint. Bill Reed's first novel is a celebration of the Australian language. Dogod employs a language that uses our sounds, our national images, our landscapes and our slang to examine our rhythms and forms of speech. Leading back through the images as words of Joyce, Carroll, Thackeray and Shakespeare. I thought I was the one making with the jokes here. Here is a lament for the human condition as it is affected in modern times. I lamented a bit over the manuscript too. All I know was it was a neat pile of typescript pages but next morning

it had paws marks all over it As a bone to a dog so are we as toys to the gods Hence Dog god a chaotic deity tossing and pouncing with bestial delight on His Its favourite human plaything Jelf A walking disaster area Jelf hardly needs Dogod s assistance to attract the natural and unnatural contempt of his associates as he lurches on his apocalyptic journey apocalyptic is first class with his allotted dog pass Jelf travels Economy through Australia s visible and invisible landscapes Dogod is both funny and profound It is an examination of the comic tragedy that is within each of us and within our society Its wit its humour and its deeper purposes are brilliantly sustained Its challenge is for you the reader At least putting reader singular was spot on NB Also there s nothing about the plot here I remember distinctly that there was one as in Jelf chasing Alyce chasing Quilty chasing Henry chasing a whole host of others or vice versa while the Australian dream really doggedly chases them all and keeps spoiling the plot like the real hound it is About the author Bill Reed is a playwright novelist and short story wroughtist He dangles shaken hanging from the pelt     The Mate Illusion (Milson Valley 31) Jo Penn,2024-07-01

web laser beam machining is widely used for various material removal applications since it provides highly concentrated energy source to cut the materials in laser through cutting a kerf is created through relative motion between the laser beam and the workpiece surface while profiling 26
