The Main Source Learning From Television News:

Interpreting Television News Gabi Schaap, 2009-12-15 Television news range among the most extensively investigated topics in communication studies The book contributes to television news research by focusing on whether and how news viewers who watch the same news program form similar or different interpretations The author develops a novel concept of interpretation based on cognitive complexity research He strongly argues that qualitative and quantitative research methods work best if they complement one another The Cognitive Impact of Television News B. Gunter, 2015-02-17 Research shows that while people around the world consistently nominate television as their most important news source much of the content of news bulletins is lost to viewers within moments In response Barrie Gunter argues that this can be explained by the way in which televised news is written packaged and presented *Press and Public* Leo Bogart, 1989 First published in 1989 Routledge is an imprint of Taylor Francis an informa company The Main Source John P. Robinson, Mark R. Levy, 1986-05-01 The authors effectively challenge the myth that the public gets most of its news from television In a wide ranging study with European and US data they conclude that television is not the public's main source for news The Main Source uses innovative survey techniques to show that public understanding of news information is considerably higher than previous research has found and that television news presentation could be far more effective Making Local News Phyllis Kaniss, 1997-12-08 Why do crimes and accidents earn more news coverage than development and policy issues affecting thousands of people Filled with revealing interviews with both journalists and city officials Making Local News is the first comprehensive look at how the economic motives of media owners professional motives of journalists and the strategies of media wise politicians shape the news we see and hear thereby influencing urban policy Making Local News by Phyllis Kaniss is significant If we can continue to get smarter about that which journalism leaves out or distorts in its coverage of politics we may eventually get smarter about politics itself Mitchell Stephens The Philadelphia Inquirer View A convincing analysis of the factors and forces which color how and why local issues do or do not become newsworthy Michael H Ebner Journal of Interdisciplinary History This work serves as a reminder of the importance of a medium that is often overlooked until economic realities threaten its very existence Choice Kaniss is truly a pioneer in the study of local news Susan Herbst Contemporary Sociology **The SAGE Handbook of Political Communication** Holli A Semetko, Margaret Scammell, 2012-04-03 This authoritative and comprehensive survey of political communication draws together a team of the world's leading scholars to provide a state of the art review that sets the agenda for future study It is divided into five sections Part One explores the macro level influences on political communication such as the media industry new media technology and political systems Part Two takes a grassroots perspective of the influences of social networks real and online on political communication Part Three discusses methodological advances in political communication research Part Four focuses on power and how it is conceptualized in political communication Part Five provides an international regional and
