Maturin-M Ballou,1889 **The New Yorker** ,2008 The New Politics of the Textbook Heather Hickman,Brad J. Porfilio,2012-10-13 In an age of unprecedeted corporate and political control over life inside of educational institutions this book provides a needed intervention to investigate how the economic and political elite use traditional artifacts in K 16 schools to perpetuate their interests at the expense of minoritized social groups The contributors provide a comprehensive examination of how textbooks the most dominant cultural force in which corporations and political leaders impact the schooling curricula shape students thoughts and behavior perpetuate power in dominant groups and trivialize social groups who are oppressed on the structural axes of race class gender sexuality and dis ability Several contributors also generate critical insight in how power shapes the production of textbooks and evaluate whether textbooks still perpetuate dominant Western narratives that normalize and privilege patriotism militarism consumerism White supremacy heterosexism rugged individualism technology and a positivistic conception of the world Finally the book highlights several textbooks that challenge readers to rethink their stereotypical views of the Other to reflect upon the constitutive forces causing oppression in schools and in the wider society and to reflect upon how to challenge corporate and political dominance over knowledge production *The New States: Alaska and Hawaii* William P. Lineberry,1963 *Alaska: A Bicentennial History* William R. Hunt,1976-12-17 Cliches about Alaska are legion to mention the name is to conjure up images of the Frozen North mushing huskies and grizzled sourdoughs panning for gold In this book author William R Hunt shows how misleading such images are Alaska writes William R Hunt is not the last wilderness and it has not been built solely by the self reliant efforts of hardy pioneers Instead it has struggled from its earliest days as an American possession until today for government aid to support commercial and economic development The real story of Alaska is the story inherent in the disparity between government policies urged by Alaskans and government policies actually dictated from Washington DC The issue of conservation versus development makes Alaska of special interest to all Americans today Our northernmost state is not what most Americans on the Outside think it is but as author Hunt shows all Americans have a stake in the future of Alaska and therefore can benefit from understanding the reality of its colorful history **The American Energy Initiative, Part 4: H.R. , The Jobs and Energy Permitting Act of 2011, Serial No. 112-37, April 13, 2011, 112-1 Hearing, *** ,2011 *The New International Year Book* ,1899 Fish and Wildlife Miscellaneous United States.
