## **The New Left:**

**The New Left** Allan C. Brownfeld, United States. Congress. Senate. Committee on the Judiciary. Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws, 1968     **History and the New Left** Paul Buhle, 1991-02-27 Madison Wisconsin has long been known as a dynamic cultural center and focus of political intellectual ferment in the middle of America. This collection of essays and interviews traces the rise of an intellectual New Left from 1950 to 1970 as experienced by activists and scholars with ties to the University of Wisconsin. Its thirty two contributors including prominent historians, journalists, scholars, and veteran political activists, re-examine their own personal histories in different eras and draw fresh, often surprising conclusions. The city and campus of Madison provide a veritable laboratory for the study of deep continuities in American dissenting thought. Photographs and cultural documents accompany these poignant, candid oral histories. The volume explores a crucial period of Madison's intellectual life as a crossroad of history and culture. Interviews with the scholars and former students who politicized historical analysis in light of the Cold War, McCarthyism, nuclear and environmental holocaust, civil rights, and the Vietnam War, recall the debates and alliances that kept Madison in a state of ferment. Author note: Paul Buhle is Director of the Oral History of the American Left Project at the Tamiment Library of New York University and teaches U.S. History at the Rhode Island School of Design.     **Moscow and the New Left** Klaus Mehnert, 2023-04-28 This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1975.     *The New Left* Priscilla Long, 1969

Community and Organization in the New Left, 1962-1968 Wini Breines, 1989 Did New Left activists have an opportunity to start a revolution that they simply could not bring off? Was their rejection of conventional forms of political organization a fatal flaw, or were the apparent weaknesses of the movement the lack of central authority, the distrust of politics, actually hidden strengths? Wini Breines traces the evolution of the New Left movement through the Free Speech Movement, Students for a Democratic Society (SDS), and SDS's community organization projects. For Breines, the movement's goal of participatory decision making, even when it was not achieved, made up for its failure to take practical and direct action. By the late 1960s, antiwar activism contributed to the decline of the New Left, as the movement was flooded with new participants who did not share the founding generation's political experiences or values. Originally published in 1982, Wini Breines's classic work now includes a new preface in which she reassesses and, for the most part, affirms her initial views of the movement. She argues that the movement remains effective in the midst of radical changes in activist movements. Breines also summarizes and evaluates the new and growing scholarship on the 1960s. Her provocative analysis of the New Left remains important today.

New Left Review, 2010     **The First New Left** Michael Kenny, 1995 In the late 1950s, Stuart Hall, Edward Thompson

and Raymond Williams among others came together as part of a promising new political formulation the New Left The six years of the group s formal existence represents one of the richest and most exciting periods in the intellectual history of the left in Britain This short period saw the beginning of many future theoretical developments in radical politics and the founder members of the New Left are now associated with ground breaking work in history culture and politics Michael Kenny documents and analyses the debates of the New Left showing how their preoccupations prefigure many contemporary concerns the broadening of the previously narrow definition of politics an engagement with popular culture the exploration of a Gramscian politics and the attempt to open a third space between a defunct Marxism Leninism and an intellectually barren labourist tradition A Disrupted History Greg Calvert,Carol Neiman,1971 **The New Left** Dimitrios I.

Roussopoulos,2007 Revisits the sixties and traces its ongoing impact on North American politics and culture *The New Left and the 1960s* Herbert Marcuse,2004-10-14 The New Left and the 1960s is the third volume of Herbert Marcuse s collected papers In 1964 Marcuse published a major study of advanced industrial society One Dimensional Man which was an important influence on the young radicals who formed the New Left Marcuse embodied many of the defining political impulses of the New Left in his thought and politics hence a younger generation of political activists looked up to him for theoretical and political guidance The material collected in this volume provides a rich and deep grasp of the era and the role of Marcuse in the theoretical and political dramas of the day This volume contains articles letters talks and interviews including On the New Left a transcription of the 1968 talk at the Guardian newspaper s twentieth anniversary Reflections on the French Revolution which contains comments on the 1968 French student and worker uprising Liberation from the Affluent Society which presents Marcuse s contribution to the 1967 Dialectics of Liberations conference and United States Questions of Organization and the Revolutionary Subject a conversation between Marcuse and the German writer Hans Magnus Enzenberger published here in English for the first time Edited by Douglas Kellner this volume will be of interest to all those previously unfamiliar with Herbert Marcuse generally acknowledged as a major figure in the intellectual and social milieux of the 1960s and 1970s as well as to specialists who will here have access to papers and articles collected in one volume for the first time An Infantile Disorder? Nigel Young,2018-12-07 First published in 1977 The New Left as an organised political phenomenon came and went largely in the 1960s Was the Movement that went into precipitate decline after 1969 the same New Left that had developed a decade earlier Nigel Young s thesis is that the core New Left as it had evolved by the mid 1960s had a unique identity that set it apart from other Old Left and Marxist groups He believes that this was dissipated in the later developments of the black and student movements and in the opposition to the Vietnam war By 1968 the watershed year an acute identity crisis had set in within the Movement and became the major source of the New Left s disintegration Nigel Young traces the Movement s growth and crisis mainly in Britain and America where it reached its greater strength but attention is also paid to parallel developments in similar movements elsewhere He analyses the crisis in

terms of the interrelationship between dilemmas of strategy and ideas and the external events which tend to reinforce the tendencies toward elitism intolerance and violence and produce organisational breakdown    **The Political Economy of the New Left** Assar Lindbeck,1977 Includes contributions by others    **American Lumberman** ,1894    **The New Monthly Magazine** ,1879    **The Jewish Journal of Sociology** ,1971    *Thinkers of the New Left* Roger Scruton,1985    The New Left and the Jews Mordecai S. Chertoff,1971    **The New Left** Massimo Teodori,1969 June 1988    **The New Left** William L. O'Neill,2001-04-19 In his latest publication William L O Neill presents a concise critical history of the New Left the thinking people and events that helped shape the 1960s in America and its principal heir the Academic Left The first two chapters of this lively interpretive narrative relate the history of Students for a Democratic Society SDS an organization that despite such well publicized actions as the first mass protest in Washington against the Vietnam War and the student strike that shut down Columbia University was unable to expand beyond its student base or survive a factional split Next covered is the theatrical Left notably those at the head of the Yippie movement who skillfully manipulated the mainstream media to garner enormous publicity for their stunts and staged events but whose movement like the SDS failed to survive the decade Chapter Four follows the major figures in the story Abbie Hoffman Jerry Rubin Tom Hayden the Weathermen Timothy Leary and others and sifts through various theories to conclude why and how the New Left burned out so quickly Finally Chapter Five addresses the legacy of the New Left in the rise of the Academic Left which while riddled with ironies remains entrenched in academe today    **Old and New London: a Narrative of Its History, Its People and Its Places** George Walter Thornbury,1873
