The Capitalist Reader:

The Capitalist Reader Lawrence S. Stepelevich, 2019-11-07 This is a collection of the most fundamental and concise texts dealing with capitalist theory and practice It begins with the first formulations of the theory as set forth by Adam Smith in his famous *Wealth of Nations* and proceeds to consider the most recent exponents of that theory such as Ayn Rand and Ludwig von Mises This work is intended for anyone seeking a fuller understanding of the basic ideas underlying contemporary free market capitalism

Understanding Marx's Capital: A reader's guide Adam Booth, Rob Sewell, 2019-07-11 Marx's *Capital* was a book that revolutionised political economy and for the first time opened our eyes to the real workings of capitalism It was however met with a wall of silence from the mainstream economists and the establishment Despite this *Capital* became regarded in the workers movement as the Bible of the working class The aim of this book written by authors from the International Marxist Tendency is to help guide readers through the pages of volume one of *Capital* to bring out the main themes and ideas contained within it and to discuss the relevance of this great Marxist classic in terms of understanding the crisis ridden world around us today and most importantly how we can radically transform it
