The Big Three Mountainmovers:

The Big Three Mountain-movers Jim Bakker, Robert Paul Lamb, 1977 **PTL** John Wigger, 2017-07-06 In 1974 Jim and Tammy Bakker launched their television show the PTL Club from a former furniture store in Charlotte N C with half a dozen friends By 1987 they stood at the center of a ministry empire that included their own satellite network a 2300 acre theme park visited by six million people a year and millions of adoring fans The Bakkers led a life of conspicuous consumption perfectly aligned with the prosperity gospel they preached They bought vacation homes traveled first class with an entourage and proclaimed that God wanted everyone to be healthy and wealthy When it all fell apart after revelations of a sex scandal and massive financial mismanagement all of America watched more than two years of federal investigation and trial as Jim was eventually convicted on 24 counts of fraud and conspiracy He would go on to serve five years in federal prison PTL is more than just the spectacular story of the rise and fall of the Bakkers John Wigger traces their lives from humble beginnings to wealth fame and eventual disgrace At its core PTL is the story of a group of people committed to religious innovation who pushed the boundaries of evangelical religion s engagement with American culture Drawing on trial transcripts videotapes newspaper articles and interviews with key insiders dissidents and lawyers Wigger reveals the power of religion to redirect American culture This is the story of a grand vision gone wrong of the power of big religion in American life and its limits

The Counterfeit Wisdom of Shallow Minds Lawrence LeRoy Habermehl, 1995 During the 1980s American popular opinion was heavily influenced by the ideas of several highly visible public figures whose views continue to command the respect and endorsement of millions This book systematically exposes the distortions and misunderstandings that permeate four of these positions the metaphysical speculations of Shirley MacLaine the Rocky and Rambo films of Sylvester Stallone the Nicaraguan policy of Ronald Reagan and the electronic evangelism of Jim and Tammy Bakker Through vigorous and sustained critiques the author shows that all of them though posturing as wise approaches to important problems are so severely flawed as to constitute prime examples of shallow minded thought *You Can Make It* Jim Bakker, 2021 In *You Can Make It* pastor and Christian television pioneer Jim Bakker pulls back the curtain and recounts the many struggles he and his family experienced in 2020 including attacks on his ministry platform as well as physical struggles through a life changing stroke Along the way he delivers a series of warnings based on the Book of Revelation that are both stunning and impossible to ignore Finally he shares how you can prepare physically and spiritually for the dark days ahead God s final time clock is running and it cannot be stopped But if recent events have taught Jim anything it is that there is security in the body of Christ and God Will never abandon us **Mountain Movers** Daniel M. Franks, 2015-09-16 The products of mining are everywhere if it wasn t grown it was mined or drilled But the mining industry has a chequered past Pollution human rights abuses and corruption have tarnished the reputation of the industry across the globe Over a decade ago the major mining companies embraced the concept of sustainable and equitable development and embarked on an explicit process of reform

but has the industry actually changed This book explores the dynamics of change making for sustainable development in the resources sector specifically the mining of mineral and energy resources The author recounts the stories and insights of over forty change makers both inside and outside the industry from anti mining activists to the professionals charged with the task of reform introducing the people who are moving an industry that moves mountains The book takes stock of what has worked and what has not analyzing the relative influence and dynamics of the key corporate civil society and government actors with a view to developing new approaches for improving environmental and social outcomes from mineral and energy development Illustrated with case studies from Angola Australia Brazil Canada Chile Colombia El Salvador Guinea Peru The Philippines Romania Sierra Leone South Africa and The United States of America and brimming with the backstories to the major sustainability initiatives *Mountain Movers* reveals where progress has been made and where reform is still needed towards a more sustainable and equitable mining industry
