**The British Catholic Press and the Educational Controversy, 1847-1865** Mary Griset Holland,1987    *The British catholic press and the educational controversy, 1847 - 1865* Mary G. Holland,1983    A Catholic Eton? Paul Shrimpton,2005

When in 1858 Newman was retiring from the Catholic University in Dublin friends approached him when confronted with the problem of where to educate their sons and he became the central figure in the establishment of the Oratory School Newmand and his co founders a trio of brilliant Catholic laymen two parliamentary barristers and Lord Acton faced stiff resistance in setting up the first Catholic public school and once it opened their troubles were compounded by a staff mutiny and threats of closure from Rome This is no standard story because the Oratory School was no standard school It was the school s fate to be caught up in many of the key controversies of the time not least because of its association with Newman and for this reason the tale of its formative years under Newman provides important insights into Victorian life and English Catholic history The story of the early years of the school which counted Gerard Manley Hopkins among its masters Hilaire Belloc among its pupils and Newman as its guiding light is told here fully for the first time    **Routledge Library Editions:**

**19th Century Religion** Various Authors,2021-07-09 Reissuing works originally published between 1973 and 1997 Routledge Library Editions 19th Century Religion 18 volumes offers a selection of scholarship covering historical developments in religious thinking Topics include the origin of Catholicism in America sexual liberation and religion in Europe and the emergence of Atheism in Victorian England This set also includes collections of sermons and essays from some of the most influential preachers of the nineteenth century    Nineteenth-Century European Catholicism Eric C. Hansen,2017-09-07

Included in this bibliography originally published in 1989 are books pamphlets dissertations and articles from periodicals and collections published for the most part since 1900 which present Catholic development in the nineteenth century as its major theme Each entry is annotated with the major idea or theme of the work as expressed by its author or editor This title will be of interest to students of European History and Religious Studies    **“Papists” and Prejudice** Jonathan Bush,2014-07-24

The North East of England was regarded as a major Catholic stronghold in the nineteenth century This was in no small part due to the large numbers of Irish Catholic immigrants who contributed greatly towards the region s unprecedented expansion with the Catholic population in Newcastle and County Durham increasing from 23 250 in 1847 to 86 397 in 1874 How far were the Catholic Church and its incoming Irish adherents accepted by the Protestant population of North East England This book will provide a timely reassessment of the hitherto accepted view that local cultural factors reduced the anti Catholic and anti Irish feeling in the North East that seemed deep seated in other areas This book demonstrates the way in which north eastern anti Catholicism was far from homogenous and monolithic cutting across the political and religious divide It highlights the proactive role of the Catholic communities in sectarian controversy whose assertiveness contributed ironically towards the development of local anti Catholic feeling Finally it will show how large scale Irish immigration

ensured that the North East experienced regular outbreaks of sectarian violence whether English Irish or intra Irish which were influenced by local conditions and circumstances This book is the first comprehensive regional study of Victorian anti Catholicism By examining areas of enquiry not previously considered in broader studies its findings have wider implications for understanding the prevalent and all encompassing nature of anti Catholicism generally It also contributes towards the wider debate on North East regional identity by questioning the continued credibility of a paradigm which views the region as exceptionally tolerant Religious Education in Public Schools: Study of Comparative Law José Luis Martínez

López-Muñiz,Jan De Groof,Graciennne Lauwers,2006 Publisher Description Lord Acton Roland Hill,1999-12-01 Lord Acton 1834 1902 numbered among the most esteemed Victorian historical thinkers was much respected for his vast learning his ideas on politics and religion and his lifelong preoccupation with human freedom Yet Acton was in many ways an outsider He stood apart from his contemporaries doubting the notion of unlimited progress and the blessings of nationalism and democracy He differed from fellow members of the English upper class holding to his Catholic faith And he angered other Catholic believers by fiercely opposing the doctrine of papal infallibility In this remarkable biography Roland Hill is the first to make full use of the vast collection of books documents and private papers in the Acton archives to tell the story of the enigmatic Lord Acton The book describes Acton s extended family of European aristocrats his cosmopolitan upbringing and his disrupted education Drawing a lively picture of politics and religion at the time Hill discusses Acton s brief career as a Liberal member of Parliament his work as editor and owner of learned Catholic journals his battles for freedom for and in the Catholic Church his friendship with William E Gladstone and his seven years as Regius Professor of Modern History at Cambridge University Though unable to complete The Cambridge Modern History series he envisaged Acton transformed historical study and left a legacy of ideas that continues to influence historians today **Faith-based Schools and the State** Harry Judge,2002-01-01 The questions raised by government support for faith based schools are now proving to be increasingly relevant and contentious In one form or another they have a long history and are embedded in classical disagreements about the proper relationship between State and Church or between secular power and religious freedom They have been given a sharper edge by recent events and by the emphasis laid by some governments on the importance of increasing public support for schools attached to different denominations and religions Is it appropriate in a pluralist society to support some forms of religious expression and not others What are the basic reasons for mingling or indeed refusing to mingle political and religious issues What are the larger social effects of encouraging separate schooling for distinct sectors of society These are among the questions raised and illuminated by this case study historical and comparative in character of the developing relationship between the State and the Catholic communities in three very different societies **The Waterloo Directory of English Newspapers and Periodicals, 1800-1900, Series 1 of 5** John S.
