## **The Button The Nuclear Trigger Does It Work:**

**Discovery to Catastrophe!** Jerry D. Wood, 2012-08-21 author did not provide      **The Button** Daniel F. Ford, 1985  
**British Journal of Political Science** ,1971      **Causation and Responsibility** Michael S. Moore, 2010-07-15 The concept of causation is fundamental to ascribing moral and legal responsibility for events Yet the relationship between causation and responsibility remains unclear What precisely is the connection between the concept of causation used in attributing responsibility and the accounts of causal relations offered in the philosophy of science and metaphysics How much of what we call causal responsibility is in truth defined by non causal factors This book argues that much of the legal doctrine on these questions is confused and incoherent and offers the first comprehensive attempt since Hart and Honor to clarify the philosophical background to the legal and moral debates The book first sets out the place of causation in criminal and tort law and outlines the metaphysics presupposed by the legal doctrine It then analyses the best theoretical accounts of causation in the philosophy of science and metaphysics and using these accounts criticises many of the core legal concepts surrounding causation such as intervening causation foreseeability of harm and complicity It considers and rejects the radical proposals to eliminate the notion of causation from law by using risk analysis to attribute responsibility The result of the analysis is a powerful argument for revising our understanding of the role played by causation in the attribution of legal and moral responsibility      *Dying, Death, and Grief* Michael A. Simpson, 1987 Listing of over 1700 books published mostly since 1979 Most entries are annotated Main section is arranged alphabetically by titles separate sections cover murder terrorism and political uses of death and nuclear holocaust and megadeath Entries are rated with one to five asterisks Author subject categories indexes      **Level 7** Mordecai Roshwald, 2004-07-15 Level 7 is the diary of Officer X 127 who is assigned to stand guard at the Push Buttons a machine devised to activate the atomic destruction of the enemy in the country's deepest bomb shelter Four thousand feet underground Level 7 has been built to withstand the most devastating attack and to be self sufficient for five hundred years Selected according to a psychological profile that assures their willingness to destroy all life on Earth those who are sent down may never return Originally published in 1959 and with over 400 000 copies sold this powerful dystopian novel remains a horrific vision of where the nuclear arms race may lead and is an affirmation of human life and love Level 7 merits comparison to Huxley's *A Brave New World* and Orwell's 1984 and should be considered a must read by all science fiction fans      **Current Research on Peace and Violence** ,1988      **Connecticut journal of international law** ,1985      **Red and Green** Joe Weston, 1986 No      Thinking New about Soviet "new Thinking" V. Kubáľková, 1989      **No Longer an American Lake?** John Ravenhill, 1989      *Research Series* ,1989      Strategic Analysis ,1986-04      **Code** Lawrence Lessig, 1999 There's a common belief that cyberspace cannot be regulated that it is in its very essence immune from the government's or anyone else's control Code argues that this belief is wrong It is not in the nature of cyberspace to be unregulable cyberspace has no nature It only has code the software and hardware that make cyberspace

what it is That code can create a place of freedom as the original architecture of the Net did or a place of exquisitely oppressive control If we miss this point then we will miss how cyberspace is changing Under the influence of commerce cyberspace is becoming a highly regulable space where our behavior is much more tightly controlled than in real space But that s not inevitable either We can we must choose what kind of cyberspace we want and what freedoms we will guarantee These choices are all about architecture about what kind of code will govern cyberspace and who will control it In this realm code is the most significant form of law and it is up to lawyers policymakers and especially citizens to decide what values that code embodies

*Alternative Conventional Defense Structures for Europe* Malcolm Chalmers,1989      International Affairs  
,1987      **The Book Review** ,1987      **Nuclear Times** ,1984-10      **British Humanities Index** ,1986      A London  
Bibliography of the Social Sciences ,1931 Vols 1 4 include material to June 1 1929
