Kahn,1997 This is the first volume in a series reporting on the evolution of family policies in twenty Western welfare states and comparing current provisions The developments are presented in the context of a report on

family change for each of the countries and with a view of the economic political and institutional contexts in which they occurred. Each of the country reports in the present volume has been prepared as a team collaboration by internationally recognized experts. The co editors have prepared an analytic introduction which discussed the methodology for the series as well as the hypotheses that emerge from these first case studies. The topics include family formation and current structural patterns families and the division of labour the income of families earnings taxation transfer programmes as well as the political and institutional context for family policy. An extensive bibliography is provided. About the series A series of country studies and comparative analyses examining major changes in the family and the broad spectrum of family policies in Western industrial society in the second half of the twentieth century Vol 2 The Consociational Democracies Belgium Switzerland and the Netherlands Vol 3 France and Southern Europe Vol 4 Capitalist and Socialist Central Europe Austria the Germanies Hungary and Poland Vol 5 The Scandinavian Welfare States Vol 6 Family Industrial Society and the Welfare State in the West Early Variations and Long Term Developments in Comparative Perspective Vol 7 Family Policies in the West Since World War II A Cross National Analysis *Catholic Origins of Quebec's Quiet Revolution, 1931-1970* Michael Gauvreau, 2005 The Catholic Origins of Quebec's Quiet Revolution challenges a version of history central to modern Quebec's understanding of itself that the Quiet Revolution began in the 1960s as a secular vision of state and society which rapidly displaced an obsolete clericalized Catholicism. Michael Gauvreau argues that organizations such as Catholic youth movements played a central role in formulating the Personalist Catholic ideology that underlay the Quiet Revolution and that ordinary Quebecers experienced the Quiet Revolution primarily through a series of transformations in the expression of their Catholic identity. In so doing Gauvreau offers a new understanding of Catholicism's place in twentieth century Quebec.
