**Fengshui in China** Ole Bruun,2011 For well over a century Chinese

fengshui or geomancy has interested Western laymen and scholars Today hundreds of popular manuals claim to use its

principles in their advice on how people can increase their wealth happiness longevity and so on This study is quite different approaching fengshui from an academic angle The focus is on its significance in China but the recent history of its reinterpretation in the West is also depicted The author argues that fengshui serves as an alternative tradition of cosmological knowledge which is used to explain a range of everyday occurrences in rural areas such as disease mental disorders accidents and common mischief The study includes a historical account of fengshui over the last 150 years augmented by the results of anthropological fieldwork on contemporary practices in two Chinese rural areas
