Early Prophecy in Israel Benjamin Uffenheimer, 1999 This book an expanded translation of the Hebrew original is a
penetrating study of early Hebrew prophecy as portrayed in the Old Testament Professor Uffenheimer discusses the
historical theological and social aspects of this unique phenomenon from its beginnings to the emergence of classical
prophecy in the 8th century BCE a period stretching from the prophetic leadership of Moses and the charismatic savior
judges through the court prophets of the United Monarchy to the militant prophets of the Northern Kingdom culminating in
the internal crisis under Jehu that led to the evolution of classical prophecy The author draws on the one hand upon extra
biblical Near Eastern material the Mari documents Hittite vassal treaties etc on the other he relies upon inner literary
analysis of the biblical sources themselves Among other things he contests some of the innovative theories that have been
proposed to account for biblical prophecy Yearbook Evangelical Lutheran Church in America, 1994 **Publications.**
